Rev. Charles E. Cobb, excutive coordinator of the New York based committee, which falls under the scrutiny of the United Church of Christ, asserted that, "We are waging a war on, according to my staff's information, an injustice and unconstitutional trial. The entire state of North Carolina and hopefully the other 49 states, will be looking and evaluating its outcome."

Cobbs added that no appeal dates have been set yet, but the two able attorneys are working diligently on"just that." The CR.I committee has es-

tablished a fund raising committee of clergymen who are presently accepting monies. Radio stations WLLE in Ra-

leigh and WSRC in Durham are cooperating with the CRJ staff in this venture.

a promising development and labeled it as the type of results that the Office of Economic Opportunity are looking for.

Here is the actual way the report described FAPPU: INDIGENOUS POOR PEOPLE'S GROUPS

Fayetteville Poor Peoples Organization (FAPPO) is viewed by the Executive Director and many non-poor board representatives as a dissident group interested in taking over the CCCAP and destroying it. The evaluation team found no such evident and views FAPPO as an euthentic effort on the part of the poor to organize themselves. This group as an indigenous group comprised principally of the poorest residents and centered in the Blount Street area can be a promising development in fulfilling community action goal, i.e., independent organizations of the poor identify needs and work for community solutions. The CCCAP should view FAPPOnot as threat, but should seek ways to work with this group. OEO Instructions make provision for "technical assistance, training, staff assistance and funds where possible" to such independent poor people's groups.

A spokesman for FAPPO said that the organization has just been refunded and a "master organizer" has been employed to implement new programs and to strengthen older ones.

The spokesman also said that CCCAP has refused to provide any technical assistance

for print media advertising." The first advertisements are expected to appear in the spring in what was termed "a very broad range" of Negro newspapers.

Reynolds, president of the Negro Elks organization, quotes Nixon as saving he is "going to do more for the underprivileged and more for the Negro than any other President has ever done."

Reynolds also reports that Nixon has hited about the appointment of several Negroes to high-level positions.

Just what will Nixon actually do? to be his program.
