It's a simple life with an electric dishwasher.

Simply wonderful.

Five minutes. That's all the time you'll spend loading an electric dishwasher. No pre-rinse. No scrub. Just load it and you're free to do other things—like spending more time with the family and managing a busy household.

Nice thing about dishwashers. They get dishes cleaner than hands can. Steamy hot water rinses. Electric heat dries. Everything comes out sparkling clean.

The electric dishwasher. Simply Wonderful! At your electric appliance store.

P. S.: It's a fact. The average price of today's feature-packed electric dishwasher is 34% less than 10 years ago. And it takes less than a penny's worth of electricity to wash a load.
