These blacks are not really recognized by most poor blacks, By this, I mean most blacks don't pay any attention to them because the only time poor blacks see them is on TV or pictures of them appear in the paper. We just don't bother to look to them

as our leaders. Bourgeoisie blacks are blacks that are within the State and Local Power Structure. These blacks are within reach of the poor blacks and they realize that they are constantly called upon for their influence and assistance concerning the oppression of poor blacks. They realize this, but they are so caught up in the white power structure that they are afraid to step our, or buck the system to help their poor

RESPONSIBILITY

Among the factors that cause

I don't think we as poor blacks really condemn this type of Bourgeoisie Black. It has been a long hard struggle for him to get to where he is and why should he throw all of this out of the window to help some blacks who only live from day to day. I don't have to say that their are some Bourgeoisie that

help in any way that they can. What really disturbs the poor blacks and militants the most is the other type of Bourgeoisie. The one that idolizes himself and feels that since he does have some influence and has direct contact with the man. He feels that the poor blacks must come to him to get their problems solved, With this philosophy of himself he has the audacity to come down and preach to the people about the problems they have and what they should do to overcome their problems. This black is very careful about what he says and never commits himself to anything, but just says that he will help.

When the black community gets out of hand and the white man's power structure is threatened, this is when he calls in the Bourgeoisie black to go down into the black community and cool the blacks down. When they come the whole city knows about it, The white man tells him what to say and what not to say. When he comes, the white man has made sure that the news media is there and the police are there to protect them. If you would stand back and look, you would think that there was a big fest going on and those poor blacks were eating up everything. During the fest, there are always some who know that the food is poison and this person is militant. The Bourgeoisie hates the militant, because he knows as much as he knows. At the fest, the militant steps on the Bourgeoisie black with both of his feet, the militant knows that

this black is a phony. Raleigh is full of these types of blacks. The militant is a name given to a black man who speaks out against the white system, and educates the poor blacks about what the white man has taken from them and tells them how the years. There are three types of militants: (1) A person that tries to change the system from within. (2) A person that works out of the system and tries to change it. (3) A person that believe the only way to change the system is by total

revolution. There are many ways the white man tries to keep the militant quiet or destory him and these are just a few; (1) To harrase the militant. (2) To keep militants out of the power structure. (3) If the militant is within the power structure, the white man will find someway, somehow to get rid of him, like saying the milit-

OBSERVES BIRTHDAY WITH PARTY - Mrs. Leah Kedmon celebrated a birthday recently with a party at the home of Mr. and Mrs. John E. Allen, Route 1, Kittrell. Guests were present from Warrenton, Newport New, Va., Baltimore, Md., and Kittrell. A good time was reported by all.

ant broke some rule, so we have no other choice but to get rid of him. (4) If he is in some type of organization, the organization's funds will be cut off. (5) If he is not affiliated with either of these, he will be blocked from employment because the white man is afraid to employ him because the militant might organize the workers on that 'job to strike. (6) On the other hand, the blacks are afraid to employ him because the white man my unemploy him or if it is an organization that the militant seeks employment in, he is so popular among poor blacks and others, it is very likely that he will take over and the organized employer will be blocked out because the militant has the trust of the poor black people since he is willing to lay his life down any time any where for the protection of his black brothers and sisters.

The white man doesn't want they have been oppressed over a total revolution; blacks against whites in America, because the country will be divided. Blacks in one part and whites in another, fighting against each other. This division is just what the neighboring countries have been waiting for. These countries will strike the whites in their part of America and they will have to starve. run, get kicked, live day by day in terror, be killed, and then if there are any whites left over they will have to live on our level. Each man would be equal. There would be no supreme being in America. The white man will have to look upon the black man as a equal human being.

### **CLUB NEWS**

The Idle-A-While Social Club members met on Thursday night With Mrs. Rosetta Rand as hostess giving the "invite" The hostess lives at 1003 East Jones Street. Where entertainment is always complete.

Mrs. Hazel Williams is club president, It is to her leadership that we compliment, How the business goes with a snap, snap - bang! By the democratic process but no boomerang!

The repast was pretty, plentiful and oh! so good, Fixed in the Rand tradition as only she could. It was thoroughly enjoyed by those who were there, So the ones who were absent missed something rare.

The usual is to meet, EAT and play the game. What but Pinochle could be the name? The progressions were lively and we duly recognize That Mrs. Elizabeth Pridgeon won high score prize.

Mrs. Chloe Chupp and Mrs. Margaret Baldwin didn't want So Mrs. Dorothy King and Mrs. Dorothy Powell had their wav.
