## Young Raleigh Blacks Form Corporation

BY ANTONETTE FOXWELL  
"Yesterday was too late -- time is running out fast." A group of some 100 young adults between the ages of fifteen and thirty are acting on this slogan to build a better community for Raleigh blacks to live in.

Dedicated to non-violent militant action and designed to lift up those who cannot help themselves through building character and salvaging humanity, the Young Adult Action Group was incorporated by the state on June 12, 1969.

"JUST BRAINSTORMING AROUND"  
When asked how YAAG, Inc. originated, Joseph Heckstall, a major founder, explained that YAAG was at first to be simply a group of young people meeting to discuss current racial problems. "We were just brainstorming around and decided that something really useful and constructive needed to be done, and we hit on forming YAAG."

BOARD TO PROVIDE EXPERTISE  
In accordance with its goal of bridging the generation gap in our society, YAAG utilizes a board of directors, composed of older persons from various walks of life. This board provides the expertise for action and development of YAAG's variegated projects. Included on the board are presidents of local Negro colleges, administrative officials, laborers, and house-

wives.  
O. A. Dupree, Director of Personnel at Shaw University, is the dedicated chairman of the board. Referred to by YAAG members as "our twenty-year-old chairman," the gray-haired Dupree has skillfully and doggedly served, as he puts it, "as the prop between the bubble and the burst." YAAG has had its crisis, and Dupree has always been there to help it through its period of "stormy adolescence."

SIGNIFICANT PROJECTS STARTED  
Indeed, YAAG seems to be emerging from its adolescent period into a strong, healthy adult. Several projects of significant value to the black community are progressing smoothly.

A Rehabilitation Project has been started in co-operation with the Police Department and city school principals. Boys with trouble potential will be divided into groups of ages 8-12 and 12-16. YAAG members will act as big brothers to them in an effort to offset the crime rate in our community. A study will be made periodically to determine what progress has been made.

An integral part of the "Rehab" Project concerns parolees and those who have been in training schools. YAAG will aid them in gaining entrance to college and/or jobs.  
YAAG has also contacted the City of Raleigh in attempts to

receive a contract which will provide jobs for unemployed youth at a livable salary.

Other projects now in development include assistance for unwed mothers, drama and other cultural experiences needed for developing talent, a regularly published periodical, development of business, owned and operated by young adults, wholesome recreation, enrichment opportunities for pre-schoolers, training in family budgeting for young married adults, and expansion of these programs to other cities in North Carolina and the nation.

A branch of YAAG has already been started in Clayton, where a membership rally was held on July 20.

In addition, YAAG is in the process of opening a much-needed headquarters from which to carry out its functions.

STRUCTURAL ORGANIZATION  
An organization with YAAG's projections needs full-time employees to carry them out. Included in its projections for the next two years are some twelve positions which need to be filled for the Raleigh area alone.

Joseph Heckstall and Miss Maurice Barnes are the only two employees of YAAG as yet, filling the positions of Executive Secretary and Fund-Raising Director, respectively. Membership in YAAG requires only that one be between

the ages of fifteen and thirty and be sincerely interested in helping the black community and oneself.

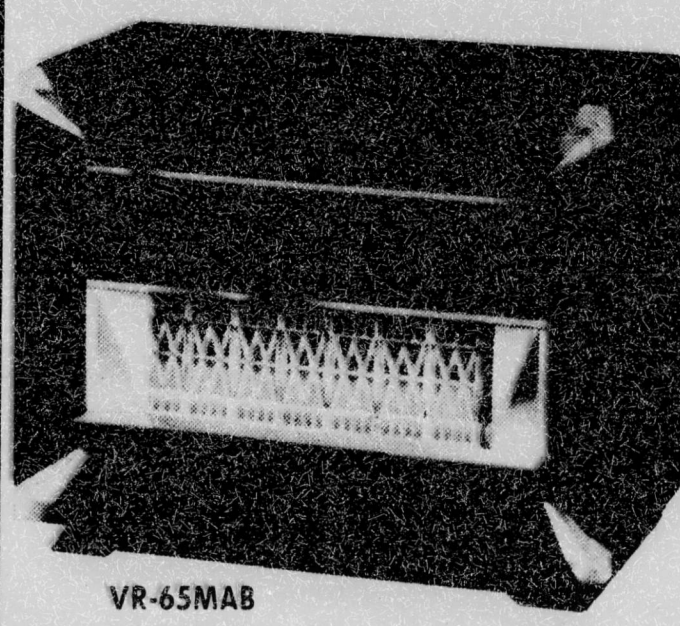

BOOSTERS' CLUBS FORMED  
In order to assist YAAG in its operations, Boosters' Clubs have been formed in various Raleigh communities. Boosters are from various ethnic groups and are now being actively solicited.

Potential boosters are invited to contribute any useful items in the form of money or materials for YAAG's headquarters.

The Young Adult Action Group, incorporated appears to be off to a running start in making its theme, "Unity in the Black Community," a working reality.
