Miss Mary Bryant, Montague Place, had the unique pleasure of hosting her son of her former employer for just a few days before his wedding date. She had been his governess in infancy. Your professional beautician knows the answer...

## Can your hair be damaged from brushing, alone?

All hair becomes damaged from exposure to sun and natural elements. Certain greasy compounds and many chemicals, improperly used, also take their toll ... not to mention simple attempts at beautifying the hair with any brush not made of natural bristles. The results are brittleness, breakage, dry and dull looking hair.

Your professional beautician knows how artificial bristles actually brush away a great deal of the "lubricants" of the hair that give it body, lustre and protection. And trained beauticians claim that nothing beats Clairol\* condition\* Beauty Pack Treatment for overcoming brittleness, dryness and breakage .... leaving hair lively and easy to manage. condition\* is an easy-towork-with creme which can even be applied during a chemical straightening retouch to prevent drying of hair that has been previously relaxed. condition\* is the ultimate in repairing deepdown damage. And, when time is a factor for their customers, hairdressers turn to new Clairol® Hair Dew\*-the lotion conditioner that penetrates so fast many think of it as an instant conditioner. When applied regularly by your beautician, Clairol Hair Dew adds body, softens and gives a glowing new look to your hair that many friends will notice and admire.

Damage can come from using brushes with artificial bristles. But damage to every woman's hair comes from so many other causes that all human hair (including wigs) needs to be revitalized periodically. Visit your professional beautician and ask this expert to check the condition of your hair.

Only your professional beautician knows the answer for sure. Clairel Inc. 1967 Courtesy of Clairoi Inc. "TM
