BY MRS. MAE L. BROADIE

Great King of nations, hear our prayer, while at Thy feet we fail. And humbly with united cry to Thee for mercy call when dangers, like a stormy sea, beset our country round, To Thee we look, to thee we cried and help in Thee was found. With one consent, we meekly bow beneath Thy chasting hand, and, pouring forth

confession meet, mourn with our mourning land. With pitying eyes, behold our needs, as thus we lift our prayers, correct us with Thy judgments, Lord, then let Thy mercy spare, Let us pray, Dear Lord, we so often forget that the air, the sunshine, the rain, the minutes are Thy gifts to us. Forgive us for any forgetfulness of thy mercies. Open our hearts daily to a full sense of Thy goodness, and to grateful acceptance of Thy blessings, We thank Thee for answered prayers, even though the answer is some-

times no. We also thank Thee that prayers are answered regardless of race, language, or nationality of the person who prays. For love like Thine, we thank Thee. Help us to be willing to be voices for Christ in our world today. Grant us courage to speak clearly, unmistakably, effectively, calling the attention of men to Christ, who

He is, what He has done, is doing and will do. If men will only permit Him to do it, in His name, we ask these things, Amen.

Your professional beautician knows the answer...

Why does some hair break off when combing?

Your hair is precious and delicate ... and none of us like to see it break off for any reason. Scientists tell us that excessive use of hot combs and over-processing of hair with chemicals often are major causes of brittleness resulting in hair breakage. But hair that is naturally curly and tangles easily frequently breaks off in everyday combing. Notice how irritated your scalp becomes when you comb in contrast to the way your beautician does?

Your professional beautician knows that curly hair mats and tangles so easily that it should be softened before combing. Otherwise, unnecessary irritation to the scalp and damage to the shaft and ends of the hair occurs. To achieve this needed softening and a temporary relaxing effect that prevents breakage on all human hair (including wigs), most beauticians rely on Clairol* Hair-So-New* spray-on creme rinse. For combing ease and for beautifying your hair in many other ways, trained beauticians stock a complete family of fine Clairol products for your specific needs.
