As John Howard Griffin had done, in writing "Black Like Me" in 1959, Miss Halsell, a southern white woman, "turned herself black" through drugs and medication last year.

Man Seeks Recruits In Vietnam

NEW YORK, N. Y.-Harold R. Sims, deputy executive director of the National Urban League, departed December 16, for Vietnam, as part of a team of educators who will recruit GI's to utilize veterans benefits by attending college upon their release from the service.

Mr Sims will represent the Urban League, and will act as an observer, gathering first-hand information on the conditions faced by black soldiers and on the strained state of race relations in the armed forces.

The trip will be a continuation of the Urban League's pioneering efforts to assist veterans returning to civilian life. Since 1967, the League has maintained a Veterans Affairs Program, with offices in nine cities.

The program grew out of executive director Whitney M. Young's visit to the combat zone in 1966, and the concerns he voiced then that minority group servicemen would be facing the massive problems of readjustment to civilian life that plagued those returning from past wars.

Another impetus to the program was given by the failure of established federal agencies to adequately inform disadvantaged groups of their rights under GI Benefits laws, and to help solve the complex inter-related problems faced by minority veterans.

With financial help from the Rockefeller Brothers Fund and several major corporations, the League established its Veterans Affairs Program to deal with "the whole man" -- all of the needs of the former servicemen.
