Yes, We All Talk

QUESTION: Can you suggest a modern manual of parliamentary procedure? Mrs. K. L. B.

ANSWER: Henry A. Davidson, M. D., is the parliamentarian of the American Psychiatric Association. His Handbook of Parliamentary procedure is a wonderful guide which does not use the legal approach. It has the concern for the satisfaction of all participants. Parliamentarian Davidson believes in increasing the degree of formality only in pro-

Children Often Victims Of Accidents In Choking

A four-year-old child was playing with his toys one day when his mother turned from her ironing to see him place a marble in his mouth. Before she could get to him he had swallowed the object, became cyanotic and stopped breathing.

The mother rushed the child to a nearby fire station where a fireman, trained by Red Cross in first aid, gave mouth-to-mouth respiration until an ambulance came to take the child to a hospital where the marble was removed.

"Choking accidents, prevalent among children under five as well as among denture wear-

ers kill approximately 1,300 persons yearly," said John R. Wiley, Chairman, Wake County American Red Cross First Aid Committee. "People may learn to prevent such accidents through Red Cross First Aid instruction," he said.

Bones, a piece of steak or other food accidentally ingested into the windpipe by adults, and pins, small toys, pieces of fruit, nuts or other bits of food swallowed the wrong way by small children could easily result in choking to death. Approximately half of the deaths from choking occur among children under five.

The Veteran's Corner

EDITOR'S NOTE: Below are authoritative answers by the Veterans Administration to some of the many current questions from former servicemen and their families. Further information on veterans benefits may be obtained at any VA office.

Q - I am attending school under the G. I. Bill and am receiving \$155 per month for myself and dependent wife. Do I have to report to the VA if my wife goes to work? Will she be dropped as my dependent, if she is to make a certain amount of money?

A - The answer to both of your questions is "No." The amount of your wife's income has no bearing on your dependency status as far as educational assistance is concerned.

Q - I am a disabled veteran and I have been advised I may be eligible for vocational rehabilitation. What are the advantages of vocational rehabilitation over the regular G. I. Bill to which I also have entitlement?

A - Vocational rehabilitation allows a wider variety of train-

ing, a longer period of training (if required), and more money. With few exceptions, it would be to your advantage to take vocational rehabilitation rather than training under the regular G. I. Bill.

Q - I was recently separated from the Army after having served four years. I got my high school diploma while I was on active duty. I wanted to start college this fall but the school I applied to would not accept me. Can the VA exert any pressure so that I can be accepted?

A - We are sorry, but the VA cannot influence the officials of any school as to their acceptance or nonacceptance of a student.
