Emergency Meet Draws Large Body

ST. LOUIS, Mo.-Representatives from the National Urban League's 97 local affiliates, calling themselves into an unprecedented two-day emergency session here last week, have served notice that a crisis of commitment exists across America in the country's inability to seriously deal with increasing domestic turmoil.

Whitney M. Young, Jr., national Executive Director of the National Urban League, underscored the seriousness of the problem at a press conference here by calling for a minimum of 50% across-the-board increase in United Way allocations to local Urban Leagues immediately, with additional allocations to be requested in subsequent campaigns.

"The Urban League is the only full-time, private race-relations agency supported by the United Way across the country, yet we receive only 11 1/2% of the allocations from United Way agencies (United Funds and Chests). We question the seriousness of this situation." (See EMERGENCY, P. 2)

Investigating officers said Monday that they had several leads, but none of them gave any definite clue of where the minister met his death. Revenue Rises In Triangle

RESEARCH TRIANGLE PARK-Research Triangle Institute's contract revenues rose to \$7,548,000 during 1970, with greatest growth being in medical and health-related studies, education research, and the environmental sciences. Institute president George R. Herbert reported Wednesday at the annual meeting of RTI's Board of Governors.

The revenue total from RTI research contracts with federal, state and industrial clients is \$260,000 over last year's figure, Herbert told Board chairman George Watts Hill and other members of the not-for-profit organization's governing body.

He said the Institute increase runs counter to a national trend of research cutbacks that are causing severe reductions in many scientific programs across the country. "In contrast with this decline, RTI's growth trend directly reflects the commitments we made several years ago to expand our activities in health-related fields, education, the social sciences and public affairs research," Herbert commented.

J. Foreman Jumps Out Of Taxi

Jesse Lee Foreman, who drives a taxi for Blue Diamond Cab Company, Dakar St., told THE CAROLINIAN Tuesday how two passengers tried to rob him Monday night around midnight in the Apollo Heights section of the city, but the attempt failed when Foreman jumped from his cab and ran.

Foreman, who is partially crippled and walks with a cane, gave the following account of the incident.

"I picked up two Negro males at the corner of S. Swain and E. Hargett Streets, sometime between 11 p.m. and midnight and they both got in the back seat of the taxi. When I reached Apollo Heights at the corner of Solar and Grantland Drives, I was told to stop and they would get out here.

"When I stopped, the fellow on the right looked over the seat as if to read the fare on the meter and I did, also. As I straightened up to reach back to get the fare, he had a pistol in my face. Then he asked me to take him to the country. "I refused to take him and then I opened the door on the left of the cab, which is the driver's side, and ran. I started (See RESISTS TRY, P. 2)
