

IT'S YOUR MOVE!

... To stay in the game or drop out ... to take advantage of the educational opportunities offered you and make a future for yourself ... or join the minority of "goof-offs" and end up with nothing. The backbone of any great nation is education, and we are a great nation. Its future depends on you, the youth, to keep it great. How can you do that on a "high" or a police record ... you can't! You are the one to make the ultimate choice ... so make it the right one. Education plus knowledge equals success for you and your country. Think about it before you make your next move.
