A Bridge - What a fascinating and valuable structure in any part of the world. There are many types but all have the same function of providing a connection, a means of travel between two or more areas. Persons can be bridges and they can help build bridges. Bridges of understanding; bridges of reconciliation between individuals and between groups. Some of our most satisfying experiences come through redeemed, renewed interpersonal relations, with God and with our fellow man. Let us Pray:

O Lord, who has given us this great joy, give to us a grateful heart that we may thank and praise Thee as we ought to do. All good things come from Thee and Thou hast filled our lives. vice. Again, we are saluting Help us to enjoy with all our hearts the happiness that Thou hast given us and not spoil it by vain regrets for the past, or useless longing for more. If there is a trace of bitterness in our cups of joy, let us remember that nothing on earth is perfect or can be so. We deserve far less than Thou hast give us. Make us truly grateful for Thy Goodness. Make our bridges strong and safe as we journey home to Thee. We pray

Your professional hairdresser knows the answer...

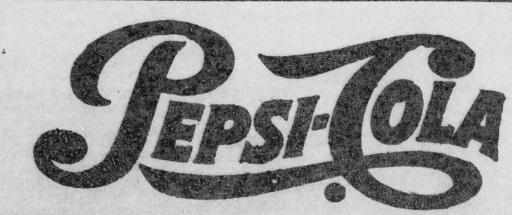

Was haircoloring first done in Africa?

Centuries ago in Africa (before it was explored by Europeans) beautiful black women used herbs and other ingredients to change the color of their hair. It was one way to complement their dark rich complexions... to accent their natural warmth and beauty. Whether or not Africans were the first to use this method, no one is sure. Yet, they are among the first in terms of recorded history to go through the then-tedious process of coloring their hair.

Today changing your haircolor can be as quick and as brief as a visit to your professional hairdresser. That's because many professional hairdressers use Miss Clairol* Hair Color to lighten hair. to make slight color changes and to cover gray. Hairdressing experts know that exotic blacks and browns are generally gorgaous for darker skin tones. Golden or red shades are stunning for lighter tan complexions.

Today black pride brings you closer to the cultural ways of your African heritage. Haircoloring is a part of black history too. Ask your professional hairdresser about changing your hair color with Miss Clairol ... and be more beautiful than you already are.
