Calls Upon Blacks To Help Own

WASHINGTON, D. C. - Congressman John Conyers of Michigan said last week that blacks must overcome their reluctance to support a black man or woman for President. Most people would think that blacks were the biggest fools in the world if they continued to run for governors, mayors, and Members of Congress, but looked in the mirror and disqualified themselves from positions of national leadership.

In remarks prepared for the Black Coalition of New Haven, Connecticut, Conyers stated that the entire country should now be put on notice that we are no longer satisfied being black leaders, but have resolved to take our rightful place as national leaders. Clearly, if we

How liberal do you think President Nixon will be in making his two appointments to the Supreme Court?

Mrs. Barbara Mann

"Normally, I don't think Nixon will be liberal in his selections. However, if he does, it will be only because he is a likely candidate for the presidential nomination and for him to be liberal in his selections would be the ground work for securing some votes."

"I don't think Nixon will be liberal in his selections because it is not normal for him to be liberal in anything he does. He has not been liberal in making his other decisions and I don't think this will be any different."

Lewyn Hayes, Jr.

"Mr. Nixon being basically conservative, will probably follow through with his right wing influence. However, past performances on the bench is an indication that the appointees sometimes take a liberal
