evening worship service, Dr. Dorothy S. Williams, guest speaker, delivered a very profound and timely message,

Lest we forgot, there is also a message in each hymn and anthem. ''Climbing Jacob's Ladder" delivers both a message and a challenge. The choir's singing of the anthem, "If With All Your Hearts," by Mendelssohn provided everyone with that special moment of self-examination. This was an occasion of great music. Such well-known and often sung soul-stirrers as; "Swing Low, Sweet Chariot,"
"Hallaelujah," "Tis Done" and
"I'll Walk With God." (Mrs. Catherine Quick, soloist) keep many hearts warm and re-

Many thanks to my many readers who are still remembering me in their prayers. Keep singing and listening to GOOD MUSIC.

## Your Weekly Horoscope

October 23 through October 29, 1971

ARIES (March 21-April 19): A push-pull week is on the agenda, Ari. But if you keep the arteries of communication open, you'll pull through. Don't let them harden. Circumstances may force you to make important decision. Time ideal to try the new, the adventurous, the exciting. Drag timid pal along.

TAURUS (April 20-May 20): Search for inner peace will occupy a good deal of your thinking, Taurus. Progress can be made. But bear in mind, dear, that peace is not necessarily a thing of permanence. So if you are lucky enough to enjoy a moment now and then, treasure it well. Week ends on note of A for anticipation.

GEMINI (May 21-June 20): Reach out and touch the sky in week ahead, Gem. You can do it. Present relationship with associate/mate becomes more meaningful. When Nature made you, she matched you. O happy day!

CANCER (June 21-July 22): Like an open door, a new frontier beckons. If you have courage, the experience could prove most exhilarating. Cast off old, outmoded thinking concerning current associations. A dash of brashness is in order, Moonbaby.

LEO (July 23-August 22): Leo, in days ahead, temptation will be strong to assert yourself (even more than usual). This is peachy, so long as it does not involve "using" companion/mate. Though you are indeed King Of The Jungle, still kingdoms are rapidly being phased out. Abuse power you possess, and you too may be dethroned.

VIRGO (August 23-September 22): Energy climbs and reaches peak by fourth day. Use it productively for creative tasks, rather than in repressive manner. Communication with tender, thoughtful individual indicated. Laugh, Virg. You can afford to once in a while.

LIBRA (September 23-October 22): Emphasis on sharing in days ahead, Lib. Sharing with dear one, both the bitter and the sweet. And BECAUSE you share, what's bitter will seem less so, and what's sweet will be twice as nice. Ahhhh.

SCORPIO (October 23-November 21): You are perhaps in a situation where hostility is so well disguised that it almost passes for tranquillity, Scorp. This is baaad. Take action to bring about change. Otherwise you will be corrupted completely.

SAGITTARIUS (November 22-December 21): You've made your share of mistakes in the past, Saj, and in week ahead one of them comes back to haunt you. Do not deny fact that mistake was made. Outcome is obvious. Act in responsible manner. Which is not to be confused with GUILTY manner. Is that perfectly clear?

CAPRICORN (December 22-January 19): Struggle is accented in days ahead, Cap. But prize is worth effort. End of week finds you exhausted but joyful. (However, don't relax too much, for The Struggle has just begun.)

AQUARIUS (January 20-February 18): Fantasy concerning goal highlighted. Realize that there is no easy way, Aquari. Additional planning, and much more hard work involved before you achieve what your little heart desires.

PISCES (February 19-March 20): Problem of personal freedom may have you swimming around in circles again, Pisces. One day you desire it and the next day you fear it. Don't be intimidated by the idea. Internal conflict is natural, but shouldn't be allowed to go on, and on, and on. Therein lies madness. ACT.
