A 22-year-old young Raleigh man, Harvey Glenn McLeod, who seemed to have everything to live for and nothing to lose, was revealed to have stabbed a 16-year-old youth, reportedly in defense of his (McLeod's) sister at the age of 14, during a melee at his former residence, 603 Cannon Street, (now Dorothea Drive). On Monday of this week, young McLeod is alleged to have killed three white persons, fired at a black man washing windows in North Hills, then to have taken his own life.

the gap.

Director Powell states the probability that OIC may be able to squeeze through the summer (most of it at least) on the remaining General Funds in hand, which serve as a kind of buffer for such emergencies — although this will deplete that fund.

Thus, Powell's staff and the board may face a crisis in meeting their obligations unless a massive fund-raising effort is undertaken immediately.

On the brighter side, Powell reported that Harold Hill, Personnel Director for OIC-America explained in Atlanta, Ga., that OIC is embarked upon a new and extended training program involving General Mo-

tors to get advanced training for disadvantaged blacks and other races.

This change in OIC directional training will help OIC and GM to train the underprivileged to take skills training for five years on the job, at an annual salary of \$4,000 and graduate at the end of five years into programs paying \$11,000 to \$13,000 a year.

DURHAM—The 50th annual session of the Old North State Medical Society will convene here June 6-8. The sessions, which will include the Dental Society and the Pharmaceutical Society, will be held at the Durham Hotel and Motel.

In addition to the business sessions to be conducted by the medical men, each of the three areas represented at the annual meeting, outstanding clinicians have been engaged to appear before the members during the three-day sessions.

The initial meeting is slated for Tuesday evening at a Cocktail Party and Dance. The visitors will have a brief conference with consultants following an eight o'clock breakfast Wednesday morning and at 9:30 Dr. Charles James will moderate a session on the Management of Upper Respiratory Infections. On the brighter side, Powell reported that Harold Hill, Personnel Director for OIC-America explained in Atlanta, Ga., that OIC is embarked upon a new and extended training program involving General Motors Institute, a culmination of one of the many efforts of OIC founder, Dr. Leon H. Sullivan, (first Negro named to General Motors Corp. Board of Directors).

Memorial Day Is

Observed

BY WILBERT M. SANDERS

Monday, May 29, was set aside by the Congress of the United States as Memorial Day to honor our war dead and men, who are still in uniform throughout the world. Many testimonials and church services are joining in the observance on this day so that Americans could honor and show their respect for our servicemen.

Federal and state offices were closed as were many locally-owned businesses. However dis-

tasteful the war may seem to

many of us and whether it is

always right or wrong, it is

sometimes necessary to en-

gage in conflict to protect our

interests and preserve our

homeland. We must learn to live

and adjust to the situations.

Many families have lost loved

ones in service and many more

still have sons and husbands

who are still serving. One such
