

TUSKEGEE STUDENT GAINS EXPERIENCE — ROCHESTER, N.Y.: Walter Malone, (left), of Kekaha, Hawaii, and a sophomore mechanical engineering major of Tuskegee Institute, gained practical industrial experience while working under the cooperative education program at Eastman Kodak Company in Rochester, N.Y. He assisted a group of engineers responsible for the operation of roll coating machines used in the manufacture of photographic film base. Involved with engineering drafting and troubleshooting of defective processes, Walter is shown pointing out to his supervisor, Donald J. Lerch, an administrative assistant in the roll coating division, (a defective part on a pneumatic temperature control unit).

Woodhouse Male Chorus, and the Family Circle, all of Smithfield, the Male Chorus and the Richardson Sisters of Clayton.

There will be a gospel program at the House of Prayer For All People, Bules Creek Sunday at 7:30 p.m. On the program will be the Friendly Five of Bunnlevel and others.

Until next week, here is our thought for the week is "I will let nothing separate me from the love of God."

G. Jackson Grayson, Price Commission Chairman: "The stabilization program has been successful in reducing both the rate and the pressures of the inflation in our economy."

Officials Seek Conspirators In Louisiana Police Slayings

National Black News Service WASHINGTON —The reaction of public officials to the killings of three police men in New Orleans last week, allegedly by Black gunmen, was to call for death penalty legislation for persons convicted of killing policemen while performing their duty.

U.S. Rep. Richard H. Ichord, D. Mo., said he would seek immediate hearings by the House Judiciary Committee on a bill he had previously introduced making it a Federal crime to kill or assault a law officer or fireman while in the line of duty.

Louisiana's Ed Edwards, in remarkable contrast to his lack of public outrage at the law-officer slayings of two Black Southern University students, declared that "attacks on the policemen and fireman constitute attacks on the whole society."

Guate reported that U. S. Attorney General Richard

Kleindist assured him that the full force of the Justice Department will be behind a national investigation to determine whether there is such a national group.

Other speculation centers around the training and background of the men who initiated the New Orleans gun battle, wondering at their deadly

accuracy, and the possible getaway of a second "terrorist."

Price Commission Chairman C. Jackson Grayson has testified that the administration's wage and price controls had made "significant" gains in fighting inflation. However, at this time the chairman is against controls on food.

Cuba on Hijacking The Cuban government has indicated a willingness to cooperate in efforts to deal with air piracy. Secretary of State William P. Rogers met briefly with Ambassador Felix Schnyder of Switzerland, whose nation represents U.S. interests in Havana.

THE GOSPEL WORLD
