WASHINGTON - William Luck, a black labor leader, has called for the removal of Labor Secretary Peter J. Brennan, a former union official.

Lucy, of the Coalition of Black Trade Unionists (CBTU), said of Brennan, "he has no credibility left with the trade union movement."

"I'd like to see him replaced with someone who is either clearly White House and doesn't travel under the cloak of labor, or someone who is labor and is prepared to present the interests of workers."

Lucy charged Brennan with abandoning his union principles since joining the Nixon Administration in January, 1973.

Lucy's remarks came a few days after AFL-CIO President George Meany had compared Brennan to a ventriloquist's dummy in punching Nixon Administration policies opposed by labor.

"The way they keep him out of sight right after he testifies (before Congress) is clearly an indication they are not satisfied." (See BRENNAN IS, P. 2)

### CRIME BEAT

From Raleigh's Official Police Files  
EDITOR'S NOTE: This column or feature is produced in the public interest with an aim towards eliminating its contents. Numerous individuals have requested that they be given the consideration of overlooking their listing on the police blotter. This we would like to do. However, it is not our position to be judge or jury. We merely publish the facts as we find them reported by the arresting officers. To keep out of The Crime Beat Column, merely means not being registered by a police officer in reporting his findings while on duty. So simply keep off the "Blotter" and you won't be in The Crime Beat.

At that time, the third man struck me in the face. When I struck him back, all three of the men left," completed Mr. Caple's statement. Caple is black. The men are white.
