MAN, 20, KILLS OWN FATHER

National Leaders To Attend

Soul City Groundbreaking

Argument 'Triggers' Shootings?

Solons, Mayors Invited

SOUL CITY - Soul City's historic groundbreaking ceremonies, Friday, Nov. 9, 1973, will be attended by national leaders, it was announced this week. Included among those accepting invitations are: Congressman Parren J. Mitchell, Mayor Jay Cooper, Mayor Johnny Ford, Lt. General Daniel James, and Mrs. Elaine Jenkins. The attendance of these distinguished individuals signal the nation that Soul City is underway.

For the first time, perhaps, in the history of Republican State Conventions, blacks will play an important part in the deliberations which will take place at Dorton's Arena Saturday, when the 4,000 delegates, from across the state, meet to name a chairman. The 1972 gains will be assessed and the man selected will be charged with the duties of making more gains in 1974. There has been quite some in-fighting for the coveted job. Dopsters say it is not only a battle between the incumbent chairman, Frank Rouse, a Kinston businessman, and Tom Bennett, Morehead City lawyer and former member of the General Assembly, but who has the most power, Governor Jim Holsinger or Senator Jesse Helms.

Rouse is said to be the choice of Senator Helms, while Bennett was selected by the governor, as the man that he could work with best. There is also the image of Gene Anderson who many say, calls the shots in the governor's office. According to an unauthentic count, there could be (See REPUBLICANS, P. 2)

TUESDAY NOV. 6th Top Analyst Talks Here On UN Day

"United Nations Day is a very significant day, because we are now witnessing a demonstration of what the United Nations can and cannot do to preserve peace," said Dr. Lisa Sergio, world reporter and news analyst of Washington.

C. Dr. Sergio spoke during the morning session of United Nations Day, Oct. 24, on the campus of St. Augustine's College. She said that, "Nobody suggested that the United Nations could stop a war. The purpose of the U.N. is to preserve the peace which everybody hoped would remain after World War II. This country is the only country that had the audacity to throw the atomic bomb. When you see that this can happen again, you want to preserve the peace."

She stated that the U.S. and Russia are the two greatest powers, and Mr. Nixon went to China because he was frightened that China would become the third power.

She said that the strength of the United Nations is no better than the people in it, and the (See ANALYST IS, P. 2)

EGYPTIAN, UGANDAN PRESIDENTS MEET - Cairo - Egyptian President Anwar Sadat (L) greets President Idi Amin of Uganda, upon his arrival here Oct. 27. Amin said Oct. 27 he had Uganda Americans had fought for Israel against the Arabs in the 1973 Middle East war. (UPI)

MIDDLEBURG - Mystery still surrounds the exact reason why a 20-year-old man would murder his own 64-year-old father as was alleged here last Saturday in this Vance County community. Speculations were rampant, but no real evidence has been uncovered in the case, according to local and county officers.

Thomas Earl (Tony) Hargrove, has been charged with murder, after his father, Willie Hargrove, was fatally shot in the lower left portion of his stomach, one time, with a .22 calibre pistol.

Middleburg is some six miles north of the Vance County Seat of Henderson.

A hearing was held for Hargrove on Tuesday, Oct. 30. He was given an attorney and returned to the jail without privilege of bond.

In a conversation with a female official of the court in Henderson early Wednesday, it was not immediately known whether young Hargrove would be sent to the state mental institution in Goldsboro for a period of observation.

Over in Hickory, some 75 miles away from the Middleburg shooting, a 16-year-old youth has been charged with the fatal shooting of a 21-year-old coed at Lenoir-Rhyne College, according to police statements on Saturday of last week.

Lt. David Noble of the Hickory Police Department, identified the boy as Nelson Caldwell Montgomery, who was apprehended at his home around 8 p.m. Friday. (See MURDERS OWN, P. 2)

GETS 15 YEARS FOR MISTREATMENT - Miami - Chris Williams holds hands with his paralyzed bride, the former Jessie Mae Huffman, after the couple's wedding Jan. 23, 1973. Williams had shot her during a quarrel in May 1972, but his sentence for assault to commit murder was suspended when both of them told a sympathetic judge they loved each other. Circuit judge Al Sepe, Oct. 25, ordered Williams to jail for 15 years after Jessie said she was being mistreated. (UPI)

Over 2,000 Persons At Wilson AMEZ Conference

WILSON - The final session of the Cape Fear Conference, which was held here, Oct. 23-28, closed with the reading of appointments, after the best meeting held during its 62-year history, by Bishop Herbert Bell Shaw, in the auditorium of Darden High School at 3 p.m. Sunday.

More than 2,000 persons were in attendance for the closing day. Bishop Shaw preached the morning sermon. He warned that the world, including America, needed to come to the realization that Isaiah had when he exclaimed, "In the year that King Uzziah died, I saw the Lord." He called upon the audience to see the Lord and become involved in true Christian discipleship. He said that such discipleship did not end with going to church, paying dues, but extended to participation in political, civic and social welfare.

He alluded to the fact that the conference took out a life membership in the NAACP, at the behest of Chas. A. McLean. (See AMEZ CONFAB, P. 2)

The 29th anniversary of the Wendell-Wake County chapter of the National Association for the Advancement of Colored People, will be observed on Sunday, Nov. 11 at 5 p.m. at the Pleasant Grove Baptist Church, Wendell.

Featured speaker for the occasion will be noted civil rights attorney Julius Lavonne Chambers of Charlotte. Chambers is well-known across the state and nation for his winning of unusual suits, brought on by parents of students, who are segregated against.

The branch urges all to attend the session, especially parents and students and teachers.

Impeach Mayoral Candidates' Views Made Public

Delegates to the 30th annual meeting of the N.C. State Conference of Branches, NAACP, held here Oct. 24-27, adopted the most aggressive set of resolutions ever formulated by the militant body. Even though there was resounding notes of impeaching the President, the committee resolved not to have any part of such a procedure. The criticism of the nation's chief executive was encoined in the following resolution.

"We deplore the ideology of President Nixon's federalism. We would have it known that it is not new, but a replay of what we have long since experienced in North Carolina. Even though we have had no choice, we unservedly say to Mr. Nixon that his federalism eats at the very core of democracy and we call upon him to cease being racially biased and fulfill his promise to bring America together. This means he must reverse his field and carry the ball, instead of being the quarterback, calling plays that keep our backs to the wall, on the one-yard line. We reaffirm our zeal and stated position to protect our goal against all the deceptions he might set up, whether they be Watergate, revenue sharing, abolishment of helpful programs to the poor, moratorium on public subsidized housing, rash anti-

Lightner, a veteran of six and one-half years as a member of the Raleigh City Council, presently the city's mayor pro-tem, is president and general manager of Lightner Funeral, Lightner Insurance Agency and Hillcrest Cemetery, gives his views as the first Raleigh black man ever to offer for the post of mayor of the City of Raleigh.)

You are all aware that Raleigh is going into the district system of city council representation for the first time. The entire council will be composed of people who have never served on the council before. To implement this new system requires strong leadership and intimate familiarity with the workings of city government. It cannot be overemphasized that I am the only candidate seeking a council position with any previous experience, and my tenure as mayor pro-tem will aid me in being an effective mayor.

(Editor's Note: G. Wesley Williams is executive director of the Raleigh Merchants' Bureau. In this, the last of a three-part series on the candidates, is Mr. Williams' views of his race for the post of mayor of the City of Raleigh.)

Feeling a keen sense of duty and responding to many requests from friends throughout the city, I am a candidate for Mayor of the City of Raleigh.

Three words express the spirit of the program I advocate. I propose a new goal for Raleigh - BETTERMENT BEFORE BIGNESS.

I do not look upon growth as a disease, nor do I look upon it as a measurement of success. I stand for orderly, quality growth - the kind of growth that serves the people, not the kind which requires people to be served. I am not against bigness if it is for betterment.

Our most important goal should always be to improve human relations. Neighborhood groups, environmental-
