have not become "a repository of crime."
Responding to an article in the New York Times by Washington reporter Paul Delaney, Louis Farrakhan, the national representative of Elijah Muhammed, the leader of the Black Muslims, said the article in the Times that said the nation was in "deep trouble" made "a mockery of Muhammed's noble efforts to get the black man to do for self."
In his article, Delaney had said that:
"The Nation of Islam is in deep trouble, reeling from financial difficulties and a change of direction that has led some of its followers back into the life of crime from which many of them were recruited."
But Farrakhan countered by saying, "If you say we are in financial trouble, then check our records, we are running our businesses."
He also said the group "cannot be held responsible for any deviation from the divine law of God of any of its members."
