HOW TO BUY ELECTRICITY AT SALE PRICES.

All kilowatt-hours are not created equally. There are off-peak times each day when they cost us less to make. And when they can cost you less to buy.

Sign up for CP&L's new Time-Of-Use Rates, and we'll install a special meter that tells us not only how much electricity you use, but when you use it.

Then, at billing time, we charge you a lower rate for the electricity used during off-peak. Just by changing your times for things like showers and laundry, you can save up to 15%.

This time of year, off-peak times weekdays are from 6 am to 1 pm and 4 pm to 9 pm and all day Saturday and Sunday
