## HELPFUL HINTS

**Should You Join An Investment Club?**

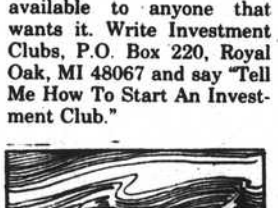

If you received an inheritance of \$25,000, would you be able to grow it into \$250,000 in ten years? One investor did just that. About the time she inherited that sum from her mother she decided to join an investment club where 15 other women were investing \$25 a month.

The new investment club was made up of women who wanted to learn and treated their investment club as a classroom. They followed the instructions on how to operate a new investment club to the letter. In six months they had learned the stock market terms and had learned the few figures that identify a growing company that is likely to produce stock market profits.

When one member identified a good company she put \$5,000 of her kitty into it. Over the next year she found four more companies that seemed to have great prospects. One moved up by 15 times in three years. She divided that money between two new companies and saw them double in value in two years.

Starting an investment club is easy and fun. Over 100,000 investment club members have joined in the volunteer, non-profit National Association of Investors and are pleased to make information available to anyone that wants it. Write Investment Clubs, P.O. Box 220, Royal Oak, MI 48067 and say "Tell Me How To Start An Investment Club."

Nothing fishy about it—one of the flounder's eyes travels to the other side of its head as the fish develops. The winter flounder's eyes are on its right side, while the summer flounder's eyes are on its left.

Position will remain open until filled.

## QUIT

**Helpful Tips and Ideas To Help You or a Loved One Quit Smoking—Throw Away Those Cigarettes**

You can do it! Thousands of Americans quit smoking every year. The first thing to do, say experts: Throw away all cigarettes and matches, and hide lighters and ashtrays while you're involved in a smoking cessation program. Make sure to ask your doctor for diet and exercise recommendations that may make things easier.

Step two: Realize that what makes quitting smoking so hard is nicotine addiction. Making it easier for many would-be non-smokers to overcome nicotine withdrawal is a prescription medication that works by releasing small amounts of nicotine in the mouth as you chew. You can stop smoking immediately. See your doctor for more details about this product and smoking cessation programs in your area.

## New Emphasis On Home Canning Triggered By Current Drought Conditions

Fruit and vegetable shortages along with higher prices at the cash register are predicted this summer as severe drought conditions continue to affect a large part of our nation's farmland. But consumers don't have to be the victims of these harsh conditions. Instead, they can take matters into their own hands by home canning fruits and vegetables now to lessen the squeeze in the months and perhaps the year ahead.

According to Charles V. Hall, Department Head of Horticulture at Iowa State University, the drought will have a long-term effect on perennial crops such as asparagus, rhubarb, horseradish, strawberries and other types of berries, in addition to fruit trees. These types of crops "build reserves" from year to year, and the damage to this year's crops will diminish next year's supply. Rosie Lerner, U.S.D.A. Extension Specialist in home horticulture at Purdue University, said that almost all crops throughout the mid-West are being affected by the drought, particularly tomatoes, peppers, corn and squashes.

One of the ways consumers are ensuring the availability of their favorite vegetables and fruits at low prices is through home canning. In fact, according to a recent Gallup survey, one out of four households in this country is canning vegetables and fruits from their own gardens or produce purchased from the grocery stores. Far-sighted people are canning in order to

enjoy a wide variety of foods in the months and years ahead, even if there are shortages. Home canning will also save you money as prices escalate.

Your local grocery store now has available a plentiful quantity of low-cost home canning supplies which are easy-to-use, even for the first-time home canner. Kerr Glass Mfg. Corp., for example, will make available a free copy of its "Instruction Guide for Home Canning and Freezing," a 16-page canning guide which is useful for both the experienced canner and the novice. For a free copy of the Kerr guide or for assistance with any home canning questions write to Kerr, Consumer Products Division, P.O. Box 76961, Los Angeles, CA 90076. This is a good source for home canning queries. Kerr has been in the business for 85 years.

The record for the most gold medals for Olympic swimming is held by American Mark Spitz. He won a record seven in 1972 as well as two in 1968 and of these, eight were won in record time. He also holds a silver and a bronze from 1968.

Home canning jars are available in a variety of sizes to accommodate both whole and sliced fruits and vegetables.

Q: When should I replace a needle (stylus)?  
A: After every 400 to 600 hours of play, depending on its quality, and the condition of the records it plays.

Q: How do I clean my CDs?  
A: CDs—compact discs—should be cleaned with a soft, lint-free cloth. Commercial CD cleaners are also on the market. Never use a household cleaner!

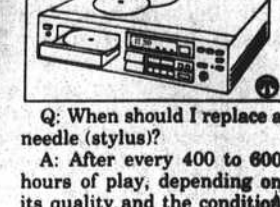

Q: How do I care for my CD player?  
A: Protect it from extreme heat, moisture and mishandling. On some players, the laser needs to be wiped free of dust and smudges.

For more tips on caring for your electronics products, send a self-addressed, stamped #10 envelope and 45 cents to: EIA, P.O. Box 19100, Washington, D.C. 20036. If you have any additional questions, write Sally Browne c/o EIA.

## Ask Sally

**Caring For Your Sound System**

Q: How do I know when to clean my audio tape player?  
A: When there's garbled sound or low volume, use a commercial head cleaner. Bad sound can also be caused by a warped cassette, or by stretched or damaged tape, which should be discarded.

Q: How do I replace a needle (stylus)?  
A: After every 400 to 600 hours of play, depending on its quality, and the condition of the records it plays.

Q: How do I clean my CDs?  
A: CDs—compact discs—should be cleaned with a soft, lint-free cloth. Commercial CD cleaners are also on the market. Never use a household cleaner!

Q: How do I care for my CD player?  
A: Protect it from extreme heat, moisture and mishandling. On some players, the laser needs to be wiped free of dust and smudges.

For more tips on caring for your electronics products, send a self-addressed, stamped #10 envelope and 45 cents to: EIA, P.O. Box 19100, Washington, D.C. 20036. If you have any additional questions, write Sally Browne c/o EIA.
