**The Stars**

MURIAL AND JERTHA LOVE

WEEK OF APRIL 15-21

As we finish up the wonderful pioneering sign of Aries and move on into the resourful sign of Taurus, let us all be glad and rejoice at this springtime of our year. First let us say happy natal day to all of you born in this cycle and for sure this new beginning is going to be the best yet. The three C's... clean up... clean out... and circulate... We have on the horizon three planets in retrograde and they affect all, however, it is reorganization time for the Aries and a time of bliss for the Taurians. Why do I say that? For sure it looks promising when you don't have to put forth much effort. Sometimes to reflect over a situation is better than wondering how to get out of this mess this time. So be light and let your light shine bright. Happy birthday. Planets retrograde are: Mercury, Uranus and Neptune.

**ARIES**

March 21-April 19

Why not let this time be one of allowing things to simmer for the right time to initiate is just around the corner and you can go full speed ahead. Security is important and keep the home fires in order.

**TAURUS**

April 20-May 20

Looks like this is the turning point for you and yours. Let not your heart be troubled with the adjustments that are made for the time is now and you should be feeling somewhat a little more secure. Watch your budget and things will pan out for you. Happy birthday.

**GEMINI**

May 21-June 21

Perhaps your mood lately has been somewhat on the scattered side. However, as you begin to think things out a little more and the time is here for reflection you will find that you are preparing for some new insight that will bring things to a better conclusion.

**CANCER**

June 22-July 22

Together with your key and for sure you enjoy it when the whole family is together and what better moment to allow this to manifest. You do have some persuasive ability, so stay grounded.

**LEO**

July 23-Aug. 22

Staying in a happy frame of mind is your forte. So let it rub off on others. This week can find you in the best of moods. However, there may be a few who wonder why you always are like this and for sure they are not hearing the same tune as you. Hold no grudges.

**VIRGO**

Aug. 23-Sept. 22

Future moves are important to you at this time and for sure with the heavens on your side you may still have to plod along until that right moment and it is almost here. Do not take unnecessary risks.

**LIBRA**

Sept. 23-Oct. 23

Good news is on the horizon and for sure your smile will get broader and broader. The solution to all of your problems may not be answered; however, you will find things lightening up for you and there will be an adventure in the air.

**SCORPIO**

Oct. 24-Nov. 22

Perhaps with all the monies in order you will now find the right time to let in some new thoughts. Yes, you have been preoccupied lately with just how you were going to manage. With your job goals looking somewhat more secure you can plan that winning combination with those in the workforce.

**SAGITTARIUS**

Nov. 23-Dec. 21

This may be a good time to plan a little trip that could revitalize you. Looking at things from another perspective may be revitalizing in this situation. Try to let details take their course. Look beyond and be the visionary that you are.

**CAPRICORN**

Dec. 22-Jan. 19

Many times, Capricorn, you have to learn how to let go... let God... relax and let your good come to you. Many times you find that the delays are put there by you and no one else. Get out and go visit a place of antiquity that's what you enjoy most and perhaps when you come back you will have a fresh outlook.

**AQUARIUS**

Jan. 20-Feb. 18

Who are we to think that we are beyond asking someone for help? Yes, Aquarius, sometimes you have to let people know just what is happening and you will find that things aren't as bad as you think they are. Let your good come to you. Make your list: asset or liability?

**PISCES**

Feb. 19-March 20

Why not be ready to take a trip at the last moment. Sometimes that, too, is in order. Planning is good, however sometimes when you let the light flow to you you will do something exciting without plans. You are in a receptive mood now and it is a good time to let a little spring get into your step.

The 19th-21st is a good time to plant and transplant perennials and biennials and bulb-like crops. On the 22nd-25th plant annuals for beauty. Watch the other days. Just a time to lay some hay. Smile. Let's make this Earth Day our responsibility and keep our city and state beautiful.

**Michael Jordan Cheers Injured 6-year-Old Boy**

TROY, Mich. (AP) — Michael Jordan is a nightmare for most NBA teams, but the Chicago Bulls' star made a paralyzed 6-year-old boy's dream come true.

Kevin Hardiman of Pontiac traveled by ambulance to the hotel in this Detroit suburb where Jordan and the Bulls were staying before last Friday night's game with the Detroit Pistons at The Palace of Auburn Hills.

And Jordan didn't let Kevin down. "He came right down to the ambulance," said Dr. Elizabeth Contreras, one of Hardiman's physicians in the pediatric intensive care unit at St. Joseph Mercy Hospital. "I can't believe he really took the time to care for a child. It really shows he has a big heart."

The meeting was set up by Jordan's goddaughter, 6-year-old Turquoise Smith, who's also a friend of Kevin's.

Kevin and Jordan chatted for a few minutes and Jordan signed the brim of a Bulls hat for the boy, who was injured when he was hit by a car March 1. Friday's visit with Jordan was Kevin's first trip out of the hospital.

Jordan also promises Kevin he'd think of the boy during the game, Contreras said. Jordan scored 40 points in the Bulls' 95-91 loss.
