

**It's All In
The Stars**

MURIAL AND JERTHA LOVE

WEEK OF APRIL 9-15

Action is your key word and for this you will have to take the lead often. It is said that Aries would rather do something wrong than to do nothing at all. For sure this is true for where the action is there you are also. This new year starting out for those of you born during this cycle will find yourself going over hurdles like never before. The energy that you feel will be just the boost that you need to get through some unenlightening moments. Seems as though your greatest concerns will be with the immediate... like family and business. Perhaps this month will start off for you with obligations, priorities to be concentrated on rather than just skimmed over. Anyway, you have the ball in your court. After all, this is the time for all you great Arians to be in the spotlight.

ARIES

March 21-April 20

You may feel like there is something that you may have forgotten or you just may have a vague feeling that something is on the horizon. Whichever way you think is right. After all, Mercury has backed up there in Pisces and things could start off feeling like "Should I or shouldn't I?" However, get on your mark and get ready to "get set and go."

TAURUS

April 21-May 21

Looking over the hill or perhaps looking over your assets may not be such a bad deal after all. You are thinking about what it is that you would like to start with. Spring has sprung and for sure you would like to landscape all to the beauty that it can be. Looking at nature keeps you from feeling like things are not possible. You do have some opportunities this cycle and for sure with a low profile and contemplating before you act will bring all out well in the long run.

GEMINI

May 22-June 21

Hoorah... Your planet has gone direct and for sure the thinking has begun like never before. After all, sometimes it's good to rest your mind. With all the sudden (however, not lasting) changes that have taken place around you lately, especially around your work situation, you find yourself shifting schedules. Towards the end of this cycle your energy level will have increased and you will be off and running again. Have a great week.

CANCER

June 22-July 23

Many moods lately you have had to deal with including your own. The Moon your ruler is forever changing every two and a half days and for sure this makes you wonder for sure "Should I do this or that?" However, you will now feel much better in making those decisions with Mercury having gone direct in Pisces. Think about that trip and go ahead and make the arrangements now...

LEO

July 23-Aug. 23

You look like you have just seen the end of the rainbow or at least where the pot of gold is kept. Yes, Leo, things are looking brighter and will continue to make a good shift for you. However, remember to make things right. Do be agreeable sometimes and all will turn out okay.

VIRGO

Aug. 24-Sept. 23

When one looks into the future to see what's happening, for sure Virgo this gives you a great deal of comfort. After all, security is what makes you feel at your best. This cycle will find things somewhat scattered. However, with all your plans one of them for sure will turn out okay. Your planet Mercury has gone direct. However, it is over there across the street in Pisces and your ground may not be as solid as you would like it to feel. Give it time.

LIBRA

Sept. 23-Oct. 23

With your ruler into a good aspect to you Librans, this cycle and for sure some to come will make you feel like you have had the million-dollar check just dropped off. Hold onto the excitement for a moment and let the discipline and determination that you have developed rule your head. Don't go off half-cocked. Your health should feel a lot better. Smile and say thanks.

SCORPIO

Oct. 24-Nov. 23

You may have had that phone call or letter to finally come to make you feel like things are for sure going to come out okay. Remember, you are to take things in with a wait and see attitude and for sure this may be one of those moments that you just can't believe it's finally happening. It is, so enjoy and relax and for goodness' sake, be thankful.

SAGITTARIUS

Nov. 23-Dec. 21

Feeling like the moment has finally arrived may keep you in a positive mood for a moment. However, knowing all that has to come from this makes you hesitate to get too overly excited. However remember, "Sag," you make your own happiness and for sure why not be happy. Be diplomatic in all your doings.

CAPRICORN

Dec. 22-Jan. 20

Thank your lucky stars that Mercury has finally gone direct. For sure you can bet that all your efforts will not be in vain. However, you know how you like to think that you are always in control. Well, you can have that confidence now and for sure things will be all right. Spinning your wheels is not what a Capricorn likes. Your relationship will also take a new twist. This cycle looks fairly good for you patient ones.

AQUARIUS

Jan. 21-Feb. 19

Yes, lately you have had to wonder "What is going to happen to me next?" Thank your Heavenly Father that you now can finally feel like things are going to turn out okay. You must remember that all good things happen to those who wait and work while you are waiting. Yes, you can file an extension on that tax return and for sure all will turn out okay.

PISCES

Feb. 19-March 20

Many of you wonderful Pisces have been mulling over some unresolved situations and for sure now that Mercury has turned direct you can feel the air clearing and the fog lifting. Take the time to enjoy the beauty of the season and for sure the unexpected will turn out in your favor. Get a new look for spring and have a good cycle. This is a good time for you.

To all you wonderful, beautiful stars, this cycle will find many of you wanting to plant and think about what you will pluck up later at harvest time. Yes, this is the season for us all to be grateful and for sure with this season being the preparation time for Easter, the time of our resurrection, let us remember to take time and clean ourselves out. Remember some of the old ways that your grandparents did and take in some good herbs and drink plenty of pure water and for heaven's sake remember to take time and pray. You all are so beautiful and you do deserve the very best. Be happy... healthy... bright star.

Listen daily on WLE to "It's All in the Stars," 10-11 a.m., and every Monday night on WAUG-TV 68 at 7 p.m. and every Wednesday at 10:30 a.m. on Cable Channel 10. Remember, it's all in the stars... God's blessings be on your front door.

**Jackson
May Be
Nominee**

LOS ANGELES, Calif. (AP)—The Rev. Jesse Jackson, who lost the 1988 Democratic presidential nomination, said he would be honored to serve as running mate for this year's winner.

"If, at some future time when the nominee has been determined, if my service is called upon, I would look upon it favorably and with honor," Jackson said during a Democratic rally recently in suburban Van Nuys.

Former Gov. Jerry Brown, who has made a stronger-than-expected showing against frontrunner Arkansas Gov. Bill Clinton, has mentioned Jackson as a potential running mate.

Jackson also attacked the process that forced Democratic candidates, including Paul Tsongas, to bow out of the race before the June California primary.

"One of every 10 Americans live in California. And to accept an arrangement that essentially makes California an afterthought is a flawed process," Jackson told reporters.

DEAR BETTY CROCKER

Q. How can I use dried cranberries for baking?

Ms. W.W.M.
Bedford, N.H.

A. Tart, deep red, dried cranberries are available in some grocery stores and specialty stores. Use them as you would raisins. For example, stir them into cookies in place of raisins.

Q. How can I keep brown sugar from getting hard? If it does get hard, how can I soften it?

Ms. L.S.
Estancia, N.M.

A. Start by storing brown sugar either in the original bag, tightly sealed, or in a tightly sealed container. If sugar gets hard, place half an apple or the heel from a fresh loaf of bread in an airtight container with the brown sugar. Place container in refrigerator. The sugar will soften in two or three days. Remove the apple or bread when the sugar has softened.

You can also heat sugar in a 250° to 300°F oven, uncovered in a baking dish, for a minute or two. Or heat in microwave oven, covered tightly, on high (100 percent) checking sugar every 30 seconds until it's soft.

Q. Do candied cherries freeze

well? I don't use the whole container when I bake.

E.K.
Duluth, Minn.

A. Yes, you can freeze those cherries. Wrap them tightly and label. They'll keep in the freezer for eight months to one year.

Do you have a cooking question? Write "Dear Betty

Crocker," Box 1113, Dept. Betty, Minneapolis, Minn. 55440.

Tip of the week: Kids need more than three meals to keep their bodies growing strong and healthy. Include milk, hot chocolate, fruit-flavored yogurt, whole-grain bagels, or English muffins made into mini-pizzas, small boxes of raisins and string cheese in their diets.
