

**It's All In The Stars**

MURIAL AND JERTHA LOVE

**WEEK OF JUNE 4-10**

This is a period when you will find yourself feeling like luck is on your side and for sure this is so... with the Sun, Mercury and Venus in the mansion of Gemini... and for sure with the support that you should be feeling with Saturn in Aquarius giving you a greater sense of stability. However, as always, your mind is quick to pick up changes that are happening even almost before they can happen. This is a time for you to write those notes of appreciation as well as taking a stand on a possible job offer that is for sure yours should you want it. Keep the communication lines open with those you love and forewarned is forearmed. Don't chill out. The outcome of all that you do now depends on you. This period is a good one for you. Take advantage of the many opportunities that come up suddenly and unexpectedly. This is a long overdue reward (or responsibility that could have been avoided). However, remember, "It's All in the Stars."

**ARIES**

March 21-April 20

As the old saying goes... "It's going to be a hot place in the old town tonight." This means for all you Aries it is a very sensitive time and for sure as you pace yourself during this cycle you will come out smelling like roses. Keep an eye on your income and outflow.

**TAURUS**

April 21-May 21

The period that we are in is one of giving of self unconditionally and for sure you Taurians are hard nuts to crack when it comes to acknowledging some whose good will be taken for granted. Remember, treat others as you wish to be treated.

**GEMINI**

May 22-June 21

Feeling somewhat adventurous? Well, you should be. After all, the Sun is in your mansion. Ideas and opportunities are here for your use. Let this cycle find you open and receptive and most of all, be happy and don't worry. Happy natal day.

**CANCER**

June 22-July 22

When it comes to investigating your energies at this time, it is okay. After all, you have some opportunities that are there should you just get away from the old, negative patterns that could keep you from achieving your goals and objectives. Listen to the voice within you and you will be guided right. That is, should you be on the positive side.

**LEO**

July 23-Aug. 23

Well, Leo, you have been waiting for the opportunity to move ahead gracefully and for sure with your mind as sharp as a tack now, you can make the right decision. Your love life can be on the upswing should you be willing to compromise and let go of old, negative after-thought patterns. After all, that's not your nature.

**VIRGO**

Aug. 24-Sept. 23

This week will find you in the forefront and for sure this is just what you need for a boost to your ego. After all, it is good to have a lift once in a while. However, don't let your head get so big that you forget the higher-ups that are watching you. You are a worker and being rewarded for efforts well done is more like you. Have a great week.

**LIBRA**

Sept. 23-Oct. 23

You are the balance in the zodiacal wheel and for sure this is a good time for you to feel just that. However, remember that your efforts will be worthwhile, for the outcome will bring your just due. Open your mind up to all possibilities. Don't waste time on petty stuff.

**SCORPIO**

Oct. 24-Nov. 23

This week finds you completing some details that could have a lot to do with your \$\$\$\$. However, there could be a slight obstacle to come up between you and the one you adore (got it?). Choose wisely and so what if they change their minds? With the Sun in Gemini and all the planets supporting them, you do have a chance to come out smelling like a rose.

**SAGITTARIUS**

Nov. 23-Dec. 21

Are you feeling a little itchy, Sagittarius? Perhaps you have every right to. After all, this is your time of the year to work on yourself. The planets in Gemini are in opposition to you. However, this allows you time to work up to the beautiful light that you are. Don't push when it's time to get still. You have some support on your side. Plan ahead and then move ahead. Keep the cap on your relationships. Don't be hasty to make a decision that you may later regret.

**CAPRICORN**

Dec. 22-Jan. 20

Yes, the opportunity is yours should you be willing to work at high speed. Your opportunities are somewhat taking a new direction, especially those you thought were in the final stages. That's okay. Keep up with the children and teach them how to make a little extra change while they have some time on their hands. You are good at that.

**AQUARIUS**

Jan. 21-Feb. 18

For sure this cycle does find you with a lot of energy that may make you blow a circuit should you not husband your strength. You have some loved ones that need some attention that only you can make them feel good. This is a good cycle for you, so enjoy.

**PISCES**

Feb. 19-March 20

The family is your concern during this cycle and for sure they bring you a great deal of satisfaction. However, don't worry unnecessarily. Blending your effort with those you love is best. Keep an eye on associates that come up with a get-rich-quick scheme. Have a great week.

Hello to all you rappers out there and for sure you know that I mean you wonderful zodiacal signs. You must notice that everyone wants to say something when the Sun goes into Gemini... everyone starts thinking, and why not? This is the mansion that rules communication and we should follow the order of nature and that's what "All in the Stars" helps you do. Remember, this is only for the benefit of helping you understand your nature. Free will is yours and for sure you are capable of making worthy decisions. Let the light of God go before you making your way easy, instant and clear.

Stay tuned every Tuesday at 7:30 p.m. and Saturday at 10:30 a.m. on Channel 68 UHF and Channel 60 Cable. Also daily from 10-11 a.m. on WLLB-AM 570.

**Methodists Plan Annual Conference**

FAYETTEVILLE—Methodist College in Fayetteville is the site for the 1992 North Carolina Annual Conference of the United Methodist Church. More than 1,500 members, half lay persons and half clergy, are expected to attend the busy four-day conference June 10-13. Most sessions and the worship services will be held in Reeves Auditorium.

On the agenda for the conference is the approval of an \$11.2 million budget, the report of five task forces, the consecration of one diaconal minister, and the ordination of 16 deacons and 17 elders.

Special program emphases will include a service to honor the recently opened Africa University in Zimbabwe and to initiate a scholarship fund for the university, an evangelism service with Bishop Joseph Bethea of the South Carolina area preaching, and testimonials on the Peru Covenant and the Ganta (Africa) school project.

The North Carolina Conference includes 56 counties in eastern North Carolina from Burlington to the coast. Membership in the 838 local churches is approximately 219,000.

**DEAR BETTY CROCKER**

Q. What happens if I only use egg whites or egg substitute in a pecan pie?

S.W. Tacoma, Wash.

A. When only egg whites, egg substitute or even fewer whole eggs are used in place of the recipe's amount of eggs in a pecan pie, the mixture will boil vigorously and over onto the oven floor. This is caused by the lack of thickener supplied by egg yolks. For best results use recipes formulated for fewer eggs or egg substitutes.

Q. What is balsamic vinegar and where can I find it?

E.P. San Bernardino, Calif.

A. Balsamic vinegar is dark, thick, slightly sweet vinegar aged in barrels made of several woods. Often its rich flavor is added to fresh tomatoes or greens or in a vinaigrette. Many grocery stores carry the vinegar, as do specialty foods stores.

Q. I've always used the area of the pilot light on my gas range for letting bread rise. My new gas range is ignition lighted. How do you suggest I let breads rise now?

Mrs. M.C. Racine, Wis.

A. The hot water method will work fine for you. Place bowl of dough on a rack over a bowl of hot water, covering it completely with a towel. This gives you the ideal temperature for dough to rise: 80°F to 85°F.

We don't recommend setting dough over a pilot light, because the flame may be too hot for it, causing the bottom layer of dough to start baking.

Do you have a cooking question? Write "Dear Betty Crocker," Box 1113, Dept. Betty, Minneapolis, Minn. 55440.

Tip of the week: To make a spring buffet easy, choose a main dish that can be made at least partly ahead.

**Center Receives Grant**

Burroughs Wellcome Co. recently awarded a \$5,000 grant to the Urban Ministry Center of Raleigh, Inc. to assist in the purchase of a computer network system. Dennis Vick, an employee of Burroughs Wellcome and long-time volunteer with the Ministry's Open Door Clinic and member of the Board of Directors of the agency, submitted the grant to the Community Service Program of Burroughs Wellcome Co.

The Urban Ministry Center of Raleigh, Inc. has provided basic human services to Wake County's low income and homeless populations since 1981. Three programs: Crisis Intervention, the Open Door

Clinic and the Ark Shelter, come under the umbrella of the Urban Ministry Center and offer immediate relief for financial and food assistance, health care and emergency shelter for those in need.

The Community Service Program of Burroughs Wellcome Co. was created in 1988 to support and recognize employees' volunteer efforts in the community. Employees apply for quarterly awards on behalf of the nonprofit organization for which they volunteer.

In fiscal year 1991-92, Burroughs Wellcome contributed more than \$264,000 to nonprofit organizations through its Community Service Program.

**Food Lion's Prices 8% Lower Than Winn-Dixie's "New Low Prices"**

Winn-Dixie's been advertising a lot about how they're lowering prices. So we thought you might like to know just how those so-called 'new low prices' compared with Food Lion. A comparison of 100 key groceries revealed Winn-Dixie charged \$103.84 for items that cost only \$95.63
