MONROE, N. C. JANUARY 8 1891

The [illegible] shows a great deal of youthful energy. Quite a number of both whites and Indians are elected to the Indian legislature and government. Hard fighting is expected every day. The novelty of the Indian scenes will be the cause of all the trouble. The Indians need being because they have not been given enough rations.

THE LEGISLATURE.

Many legislators of the Legislature which convened in Raleigh yesterday, and every member will be watched very closely by his constituents. The election of a United States Senator will be the most important business to come before the legislature, and it will probably be all [illegible] before this session. There will be a strong opposition to any attempt to [illegible] but it is very probable that [illegible] will favor it.

The public school system will claim considerable attention at the hands of the Legislature, and it is generally believed that some improvement will be made. There is a strong demand for an increase of the school tax and it is to be hoped that this matter will receive favorable consideration. Very little can be given in legislation on this line. The people want better schools, and to secure them there must be an increase of the school tax.

Female education will be brought to the attention of the law makers and they will probably be asked to consider if there can any thing be done to make provision for the higher education of the boys, while no aid is provided in their course. The State will be asked to remember the fact that [illegible] to those colleges that their brothers receive.

It is [illegible] that no effort will be made to secure the repeal or modification of the homestead law. There is a very strong sentiment against this law, and we believe that if it were submitted to a popular vote the people would decide against it.
