MINCRY STR

A BREEZE—a kid—and a kite—that's the perfect combination for mild weather fun . . . but let's keep it SAFE! Reddy Kilowatt reminds kite flyers of four simple rules for safe kite flying:

- 1. Fly kites in an open field, away from power lines and overhead obstructions.
- 2. Use cotton string, and be sure it is perfectly dry.
- 3. Never use wire, metal or tinsel string anywhere on kites.
