**MORE "MULE-POWER" FOR NORTH CAROLINA FARMERS**

North Carolina is at the crossroads of a new era of agricultural development. Mechanization has played an important part, for the number of tractors on farms has increased approximately ninety per cent in the last five years! This advancement, coupled with more efficient use of farm resources, point to higher and more stable farm incomes. North Carolina continues to move forward as a better place in which to work, play and live.

Another fine example of North Carolina progress is the steadily-improving standards of operation by malt beverage retailers in "legal control" counties. The United States Brewers Foundation policy of cooperating with such retailers, in maintaining orderly law-abiding conditions for beer and ale sales, provides an important contribution to the pleasant living that is North Carolina.
