**College Tarheels...  
 AN INCREASING NUMBER!**

Although it has not reached the peak post-war year of 1947-48, total college enrollment in North Carolina is now increasing each year. The enrollment at all the colleges and universities of the State, during the school year just ended, was 45,358—or 5.7 per cent higher than the year before. With more and more of our young people seeking higher education, we can be sure their future lives will contribute greatly in KEEPING North Carolina a better place in which to work, play and live.

Another contribution to more pleasant living for North Carolinians is the brewing industry's self-regulation program where brewers, wholesalers and retailers—in counties where malt beverages are permitted under State control—cooperate to maintain wholesome conditions for the legal sale of beer and ale.
