MARINELAND AQUARIUM MAY BE BUILT IN DARE

Kitty Hawk. — A marineland aquarium, similar to the world-famous project of its kind in St. Augustine, Florida, may soon be built here on the Dare Coast. A definite announcement about the construction of the new vacation attraction has not yet been made, but persons close to the development of Dare Coastal vacation sites for a good many years have indicated that experts on fishery problems and world famous aquariums have been studying the proposition with definite announcements expected at an early date, as to where it would be located, and other data about the project.

HATTERAS ISLAND FISHING UP TO PAR FOR SEPTEMBER

Hatteras.—Surf fishing on Hatteras Island is up to par or better for this season according to Willie Newsome, owner-operator of the Sportsman's Headquarters here. He stated on Thursday that anglers were catching plenty of small channel bass going to 15 pounds, pompano, whiting and weakfish in the surf.

Trolling in Hatteras Inlet this week anglers boated plenty of Spanish mackerel and a few blues, he stated.

Dr. J. C. Overbey, the Norfolk dentist who has landed more blue marlin off Cape Hatteras and Hatteras than any other person, is spending several days here matching his skill against the big fish. On Wednesday Dr. Overbey raised three of the giant fish, and had three on during the day, but failed to boat either of the big fish. Blue marlin and other bill fishing and surf casting is at its best this month.
