USE OF ELECTRICITY

At the 4-H club meetings, Nov. 5, Mr. Wellons of the Virginia Electric and Power Company showed an exhibit of the uses of electricity. He had a board with bulbs on it wired up to a fuse box. He put in a fuse and turned on all the switches which overloaded the fuse and blew it out. Then, he tried a larger fuse and it did the same thing. He then put a penny behind the fuse and pulled the switch. This started a fire in the wiring. He proved that too many appliances on one circuit is hazardous. — Charles Fearing, reporter.

History of Bible Revealed in Film

Philip explains the book of Isaiah

The first section of a historic three-part sound film, "Our Bible—How It Came To Us," will be shown in Mt. Olivet Methodist Church at Manteo on Sunday, Nov. 16th at 8 p.m. it was announced today by Rev. L. A. Aitken. "Our Bible—How It Came To Us" traces the history and development of the Holy Bible from the first century A. D. to the present time. It was produced by the American Bible Society and ranks as one of the most authentic Bible films ever made.

The first section of the film takes one back to the very beginnings of the Bible. After a brief opening in the modern day, the film flashes back to Nazareth in the time of the first century, and shows Jesus in the synagogue reading from the scroll of Isaiah. The film then unfolds the story of how the Old Testament was formed, and how translations of the Bible into Greek spread through the eastern Mediterranean world and formed the Scriptures of the early Christians.

The formation of the New Testament is dramatically portrayed, first by showing how Paul working as a tentmaker in Corinth, dictates the first of the Epistles, and how the Gospels came to be written by Luke, Matthew and John. It comes to a close by showing how this collection of writings about Jesus and his teachings was added to the Scriptures of the Jews, making the Bible as it is known today.

It is the hope of the American Bible Society and those who show these pictures that the films shall stimulate more wide-spread reading of the Word of God. The other two sections in the series are "The Bible Spreads Across Europe" and "The Making of the English Bible." The dates they will be shown will be announced later. The public is invited to see these interesting and inspirational films.

BOATING BOOKS AND MANY OTHERS IN LIBRARY

The Dare County Library has two copies of Mildred Savage's success novel PARRISH, which is a Literary Guild selection and has sold to the movies for \$160,000. Those who saw her on TV and wanted to read her book can now obtain it from the library.

For boating enthusiasts, the Library has recently acquired COMPLETE BOATING HANDBOOK, 23 BOATS YOU CAN BUILD, and BOAT CARPENTRY.

For those who enjoyed Louise Rich's Maine books, her latest, PENINSULA, describes another part of Maine and a fast disappearing way of life.

Another interesting new book is READ FASTER AND GET MORE FROM YOUR READING, by Smith. One patron has already reported that the section on newspaper reading has made perusal of the newspaper more rapid and much more meaningful.

Just a sample of more new books are Moorehead's RUSSIAN REVOLUTION, Heyerdahl's AKU-AKU, Morgan's GIFT FROM THE HILLS, the story of the North Carolina school of handicrafts. Eleanor Roosevelt's biography, ON MY OWN, and Watson's STANDARD BOOK OF LETTER WRITING, an excellent help for those difficult letters.

FOUR GAMES ENJOYED IN NEW MANTEO GYM FRIL

Four games were enjoyed by a good crowd last Friday night in a program sponsored by the Manteo PTA. These games were the first ever seen in the beautiful gymnasium which is a part of the new Manteo High School.

First game was a contest between the Hot Shots and Scooters, which were composed of second and third grade boys. The Scooters won 11-4. The second game was between second and third grade girls.

In the third tilt of the evening, Betty Gibbs and Carolyn Basnight, with 13 points each led the Methodist Women to a 33-26 victory over the Woman's Club, with Sarah Owens leading the Woman's Club with 18 points.

The last game, between the

VEPCO men and the Shrieraers proved to be the tightest of the evening with the Shrieraers edging VEPCO 39-37. Clarence Butler, principal of the elementary school, scored 19 points for the power men and Jerry Cahoon and Bobby Duval led the Shrieraers with 12 and 10 points respectively.

On November 21, the PTA will sponsor the second in a series of these games. The Hot Shots will again play the Scooters. The Shrieraers will tangle with the Lions Club, and the Methodist Women.
