THE WORLD'S MOST BEAUTIFULLY PROPORTIONED CARS

You'll love the full six-passenger comfort in the cars

BUILT FOR PEOPLE! . . .
Just one standard was used by Ford in designing its 1959 car — people! First, Ford made the door openings wider, so it's easier to get in and out. Next they made sure that six big people—not just four or five—could stretch out on seats that are padded their full width. Result? More room for everybody's legs, elbows, hips and hats . . . more solid comfort than ever before.

BUILT FOR SAVINGS! . . .
Savings start the moment you buy a Ford. A price tag comparison with major competitive cars will prove it! And you go right on saving. Ford's standard engines that thrive on regular gas save you a dollar each tankful. Ford's Full-Flow Oil Filter means oil changes only each 4000 miles. Ford's aluminized mufflers last twice as long.
