REVISIONS IN ELECTRIC RATES FOR LARGE USERS

The Virginia Electric and Power Company last week announced a change in its residential electric rate to permit customers to take fuller advantage of their electric service, according to A. H. McDowell, Jr., Veeco President. The new rate will become effective June 1.

McDowell said that the new rate also is designed to encourage wider use of heat pumps, electric heating and air conditioners. "The new residential rate will not affect the first 600 kilowatt-hours of monthly use, but will represent a considerable reduction in the cost per kilowatt-hour for all kilowatt-hours in excess of 600 monthly," he added.

In order to improve electric water heating service to its customers, Veeco also has adopted a new optional residential water heating schedule, also effective June 1. This means the customer may continue on the present schedule for residential water heating under time control or he may take advantage of the new schedule, which will provide 24-hour service to his water heating equipment.

Under the present water heating schedule, Veeco provides a 15-hour time controlled meter on water heating equipment, which controls the time that heaters may operate. The charge for this service is at the rate of 1¢ per kilowatt-hour.

The new schedule provides for a charge of 2¢ per kilowatt-hour for the first 100 kilowatt-hours of use and 1¢ for all kilowatt-hours in excess of 100 for residential electric water heating service.

Keep The D & S Combine Out of County Affairs

HOW COULD ANY PERSON WANT TO GO BACK TO THIS KIND OF COUNTY MANAGEMENT?

THE OLD GANG, WITH NEW FRIENDS TAKE THE PEOPLE OF DARE FOR SUCKERS

The D & S combine now has the nerve to tell the people of Dare County to vote for them. They think the people have forgotten their record when they ran things high, wide and handsome. The D & S combine is a wasteful, reckless crowd, aided by some new friends who have betrayed the people who trusted them two years ago. To elect in one again is to weaken the defense of the people's rights.

The D & S combine stands for DEBT, SABOTAGE, SHORTAGE. It is supported by a group in and around the courthouse who draw the taxpayers money for work they ought to do, yet who are anxious to have you vote for people they can handle their own way. Actually they are being paid to work against the county's interests. The record shows they have been doing this. The record shows that under former control of the D & S combine, all citizens and all communities of the county were not fairly treated. These few county employes who think they ought to take over your affairs, expect to keep this kind of Government.

The D & S Combine and their supporters in effect call the people DARE'S STUPID SUCKERS. They want to get out of the courthouse anybody who understands anything about county affairs, and to keep in office someone completely ignorant, or some know-it-all as is now the case, who is in an increasingly constant state of confusion.

The D & S combine would DESTROY THE SAFETY OF THE SCHOOLS by wasting the money for favors to friends. Some of them didn't pay their own taxes, but levy taxes with delight for others to pay and throw the money away. Some of them maintain communist and socialistic attitudes under a thin coating of pretense to cover up. Does anyone want these kind of people to control raising their taxes all the time and wasting money when they don't pay their own taxes regularly. It can't be stopped by staying home on election day. That is the day to nip it in the bud.
