"THIS IS THE LAW"
By
Patrolman D. S. Skiles

The "right of way" law is best defined by the State Supreme Court in Bennette V. Stephenson and I quote: "The expression 'right of way' has been interpreted to mean the right of a vehicle to proceed uninterruptedly in a lawful manner in the direction in which it is moving in preference to another vehicle approaching from a different direction into its path.

However it does not relieve the driver from exercising due caution in trying to prevent an accident. This does not apply to the "right of way" laws that are set out in our motor vehicle statute. 1. When a vehicle is at a stop sign. 2. When two vehicles approach an intersection at the same time and have not entered said intersection the vehicle on the left shall yield the right of way to the vehicle on the right. 3. The driver approaching an intersection shall yield the "right of way" to the vehicle already in such intersection. 4. The pedestrian has the "right of way" when already in a cross walk clearly marked. To me it is best to operate with extreme caution, since our registration has increased and we are exposed to many more hazards while driving. Please drive carefully.

Galaxies contain myriad stars. But the distances between them are so vast that if two galaxies should come together, they could pass safely through one another. The odds would be perhaps a million to one that no two bodies would collide.
