

MANTEO STUDENTS ELECT OFFICERS FOR THE YEAR

Plans Made for Development of the Library; Participates in Science Library

Freshmen, sophomores, juniors, and seniors of Manteo High School held their organizational meetings last week and elected officers for the 1960-61 school year.

Seniors: Joseph Boyce, president; Miles Davis, vice president; Ellen Perry, secretary; Betty Flowers, treasurer.

Juniors: Dionne Tillett, president; Ray White, vice president; Bill Taylor, secretary; Nancy Leatherman, treasurer.

Sophomores: Charles Evans, president; Marian York, vice president; Barbara Wescott, secretary; Linda Mann, treasurer.

Freshmen: Clara May Owens, president; R. S. Meekins, vice president; Charlotte Perry, secretary; Jack Gray, treasurer.

Manteo High School is one of approximately 1600 secondary schools in the nation which has been selected by the American Association for the Advancement of Science for participation in the Traveling High School Science Library during 1960-61. During the year the school library will receive 200 up-to-date science books. The general plan of operation is to send each program school 50 books which may be used for a period of two months. An exchange is then made with three other schools so that by the end of the academic year all schools will have had the use of the 200 books. Biographies, anthologies, histories of science, general works, books on specific scientific subjects are included. The purpose of the Traveling High School Science Library Program is to develop the interest of high school students in reading such books; to stimulate the choice of a career in science by scientifically-apt students; and to afford science and mathematics teachers an opportunity for up-to-date collateral reading.
