

MUSIC RECITAL AT CAPE HATTERAS TUESDAY NIGHT

Blue Devils Defeat Manteo 73-53; Interesting Games Coming Up Soon

BUXTON, January 31. Students of Mrs. Lillie Peele held a music recital here on Tuesday night. The program consisted of a song done by the entire group of students followed by individual piano pieces.

Piano lessons are being given at the school this year to any child. Mrs. Peele has a large group of school children as pupils, and several outsiders.

Participating in the recital were the following: Debbie Williams, Melanie Foster, Lorrie Dillon, Lynn Fiedelley, Faith Hooper, Debbie Midgett, Elberta Gaskins, Cheryl O'Neale, Carla Hollis, Ginger Williams, Chris Fiedelley, Marla Fuller, Cheryl Brown, Andrea Midgett, Carla Hollis, Linda Scarborough, Thresa Austin, Rebecca Johns, Cathy Dillon, Rauna Fuller, Rose Ann Rollinson, Joan Jenette, Harriet Austin, Mary Dawn Midgett, Maggie Midgett, Don Edwards, Ozzie Gray, and Cheryl Gray.

Seniors Vs. Underclassmen

A game which promises to be of much interest will be played in the Cape Hatteras School gym on Tuesday, February 7, at 7:30 p.m. Opposing the underclassmen Blue Devils will be the Senior Globetrotters, a team made up of senior boys who will be doing their best to play like the famous Harlem Globetrotters. The Senior Globetrotters will be outfitted in black and red leotards which should make the game well worth the price of admission. The Underclassmen Blue Devils are the rest of the regular boys' team. Since about half of the regular first string are seniors, the game should be about evenly divided as to talent, and should be a close game. Playing for the Globetrotters will be Dewey Edwards, Gary Gray, Clarence Jenette, George Price, Ronnie Price, Johnny Quidley, Mack Riggs, Homer Styron, and Roger Sutton.

MANTEO STUDENTS TO TOUR POWER STATION

Science students representing Manteo High School in Dare County will tour the Portsmouth power station as guests of the Virginia Electric and Power Company, February 10th. They will be among 1,400 students from high schools in Virginia and North Carolina touring Veeco stations during the week of February 5-11, observing the 114th anniversary of the birth of Thomas Alva Edison. Edison's birthday has been designated as Science Youth Day throughout the nation. The students and their teachers will represent public, private and parochial schools in the two-state area.

This will be the fifth consecutive year that Veeco has participated in the program. Open to the students will be six of Veeco's principal generating stations: Brems Bluff, Chesterfield, Portsmouth, Possum Point, Roanoke Rapids and Yorktown.

Engineers and company officials will conduct the tours and explain production procedures. Some of the features include giant coal conveyor belts, furnaces, boilers, central control rooms, chemical laboratories and closed circuit television sets. The TV sets reveal the water level in the boiler drums and the flame pattern in the furnaces to station operators.

Students will be luncheon guests at the plants and a panel discussion will be held after the tour to answer question about the operation.

Veeco President A. H. McDowell, Jr., said that "the tours were designed to make high school students aware of the growing need for engineers in industry today, and to tell the story of the free enterprise system which has made this country what it is today."
