AN EPIDEMIC OF GIRL BABIES SWEEPS COUNTRY

This is a puzzling phenomenon, beyond our comprehension, and we don't know any reasons to offer and haven't asked any doctors, but it has been repeatedly brought to my attention, twice this year by my own children, that girl babies are in vogue at this time. Just about all the new babies you hear of are girls. Many newly married people are disappointed when their first child fails to be a boy. It's something in the blood that comes down from the days of the Old Hebrews of Bible times.

Our first two children were boys, and I did not share the disappointment that some people feel when their first child is not a boy. Of our five grandchildren, four of them are girls, and as I said when our third child was growing up, little girls are mighty sweet. As a small child, no one gets closer into your heart than a little girl. There isn't anything about who can be more interesting than a little boy, but many people have learned that little girls are not to be discounted. By way of the New Bern Mirror, one of the most captivating weeklies in the state, we receive the following masterpiece on the subject "WHAT IS A GIRL?"

"Little girls are the nicest things that happen to people. They are born with a little of angel-shine about them and though it wears thin sometimes, there is always enough left to lasso your heart—even when they are seated in the mud, or crying temperamental tears, or parading up the street in mother's best clothes.

"A little girl can be sweeter (and badder) oftener than anyone else in the world. She can jitter around, and stomp, and make funny noises that frazzle your nerves, yet just when you open your mouth, she stands there demure with that special look in her eyes. A girl is innocence playing in the mud and Motherhood dragging a doll by the foot.

"God borrows from many creatures to make a little girl. He uses the song of a bird, the squeal of a pig, the stubbornness of a mule, the antics of a monkey, the spryness of a grasshopper, the curiosity of a cat, the speed of a gazelle, the slyness of a fox, the softness of a kitten, and to top it all off, He adds the mysterious mind of a woman.

"A little girl likes new shoes, party dresses, small animals, first grade, noise makers, the girl next door, make believe, dancing lessons, ice cream, kitchens, coloring books, make-up, cans of water, going visiting, tea parties, and one boy.

"She doesn't care so much for visitors boys in general, large dogs, hand-me-downs, straight chairs, vegetables, snow suits, or staying in the front yard. Who else can cause you more grief, joy, irritation satisfaction, embarrassment, and genuine delight?

"She can muss up your home, your hair, and your dignity—spend your money, your time and your temper—then just when your patience is ready to crack, her sunshine peeks through and you're lost again.

"Yes, she is a nerve-racking nuisance, just a noisy bundle of mischief. But when your dreams tumble down and the world is a mess—when it seems you are pretty much of a fool—she can make you a king when she climbs on your knee and whispers, 'You best of all!'"

SEVEN INNING GAME S GIVES STUMPY PT. VI
