The Federal Aviation Administration has released to Dare county about 88 acres of Manteo Airport lands for eventual use as a site for an extension school operated by Eastern Carolina University of Green-

The FAA released the lands -in two parcels—to Dare county. Tuesday.

County Attorney Wallace H. McCown said transfer of the lands to ECU had not been completed, but this action is expected soon. He said ECU had been waiting for the transfer of the lands from the FAA to the county and that there would be no delay in the university's acceptance of the property. It was RED CROSS SEEKS understood any action by the university also would have to be approved by high state officials, including the governor.

During negotiations for even- Dare County Drive Underway: tual use of the land, the university stressed its use as a site for a marine studies school. It is possible, however, that other studies would be furthered here. These include aviation studies and possibly pilot training.

The lands consist of 47 acres adjacent to the 4-H camp oper-ated by the county and 41 acres adjacent to water south of the airport hangar. The land deeded by FAA to the county originally was set aside for airport use during World War II. The transfer was approved only after a land-use study had been

The FAA kept some strings on the acreage. It retained the August. right for aircraft to fly over the land, restricted the height of any buildings to 54 feet, Edna Cuthrell, ranging from prohibited any use that would messages to hard-to-locate, constitute an airport hazard, servicemen, to death calls. and decreed that the lands be used for educational purposes. The FAA said the conditions must be accepted within 18 months or the lands would revert to the federal agency.

In turn, Dare County imposed the same restrictions on the eventual transfer of the acreage to ECU. The county also said it would continue to operate the 4-H camp without regard to its possible new neighbors.

BOARD MEMBERS IN DARE FAIRED WELL IN SUMMER

Average More Than \$1000 Monthly Pay for Per Diem, Exponses

Dare County taxpayers paid their commissioners an average of more than \$1000 monthly cumulatively during the summer, in addition to other expenses in connection with operation of that office. This was despite the fact that some members were unable to attend meetings, particularly Calvin D. Burrus of Buxton who was hard-pressed for time during the bustling summer season. Burrus operates businesses in Buxton and on Ocracoke in Hyde County.

It appears from the ability of the Dare County board to spend money and receive it too, that there will be no problem in devouring the \$17.000-plus budgeted for operation of the board of commissioners. Many citizens have remarked that the wisest move the county could make, if the spending must continue spiraling upward, would be to employ first-class professional management. That procedure, it may be recalled, would make history in that Dare would be the least-populated county in North Carolina under such a system.

Dare County citizens have often wondered why, in the face of generous budgets for operation of the various county agencies, that it require expenditures in such vast amounts for its governing board. This query is not restricted to Dare citizens, but has often been addressed to this newspaper by non-resident property owners who pay the major taxes which support the county's functions. Our frankest answer is free-See PAY, Page Three

CAR WASH SATURDAY BY MEMBERS OF MYF

A car wash will be conducted by members of the MYF of Bethany Methodist Church, Wanchese, at the Midway Pure service station on Saturday, October 7, from 10 a.m. until five p.m. The price for a complete wash job, including cleaning the inside of the car, will be \$1.75.

COMMISSIONERS SAY DARE KEEPS ALL PRECINCTS

Hire Building Inspector; Formally Adopt Ambulance Ordinance

Dare County Commissioners this week turned thumbs down on the suggestion that three voting precincts be incorporated with larger nearby boxes. At stake were Duck, Frisco and Mashoes, suggested by the board of elections along with request for approval of looseleaf voter registration system.

The plan, as announced some weeks ago, met with strong opposition, particularly in Frisco, and Inge Wick appeared before the board Tuesday of this week. Wick informed the beard that Frisco was "one of the fastest growing parts of the DURING OCTOBER

A similar suggestion several years ago to abolish several voting precincts met with stiff opposition.

No action was taken on the request to convert to loose-leaf registration. However, the matter was tabled and will likely have the board's consideration within a few weeks.

Mrs. Dorothy S. Garrison, chairman of the elections board, had indicated cost of the 13precinct system at \$114 less than with the 16, as it will stand.

Building Inspector Walter Ballance of Wanchese has been retained at \$125 for blood for transfusions to Dare ten days each month, plus 7 cents per mile travel, not to exceed \$75. Balance will work in Tax Supervisor Sheldon O'-Neal's department. It has been estimated that "pickup" of property not now listed by property owners will pay Ballance's salary.

For the first nine months of \$1.1 million have been issued.
Ballance is scheduled to begin Mrs. Virginia Brantley, of October 15.

Cahoon has served with the Office of the Secretary, Treasury Department, for the past 18 years. He came to the Treasury as an Administrative Assistant before serving in his

TRAILER PARK PLAN REJECTED BY NAGS HEAD

Hearing Set for October 9 Will Air Another Controversial Matter

The proposal to construct a trailer park along the causeway leading to Manteo from Nags Head was turned down Wednesday. The matter was subject of a public hearing at the town hall attended by some 15 parties who heard the argu-

The board of adjustments, the body with jurisdiction in requests not conforming with zoning regulations, voted unanimously Wednesday night to deny the request.

Julian Oncto, chairman of the board of adjustments, stated that the concensus regarding the mobile home park was favorable, but the question of location was of prime consideration. Robert Ganiel, manager of Big Chief Bait Center, had pre-

sented the proposal for construction of the park according to the town's regulations. The location, however, was not zoned for that type operation. Ganiel told those present that he had many requests during the past season for such facilities. He proposed to begin with facilities for 16, to eventually expand to accommodate 150. He further had proposed to fence the property for a distance of 1900 feet.

South N. H. Zoning Another hearing is scheduled for the town hall on Monday October 9 at 10 a.m., at which time an application for construction of several two-family dwellings will be considered. The area in question is on the old Oregon Inlet road, an area currently zoned for single-family quarters. Many residents, See HEARING, Page Three

JOB, SELECTION

Former Sheriff, Norfolk Policeman Among Appli-

Town Clerk Juanita Parker said Thursday five persons have applied for the job of Manteo own policeman.

The job has been vacant since Sept. 26 when C. C. Duvall reigned to resume his profession

THIRTY-SEVEN TEAMS SET TO VIE IN NAGS HEAD TOURNEY

By AYCOCK BROWN

Thirty-seven teams from six states and the District of Columbia are scheduled to compete in the 17th annual invitational Nags Head Surf Fishing Tournament here on October by Joe Hume, president of the sponsoring Nags Head Surf Fishing Club.

The challengers this year will he the Dare Beaches Surfside Six team which won first place

last year. The six anglers of Surfside Six was one of the newest clubs of the Association of Surf Angling Clubs, the organization which sanctions all surf fishing tournaments. Hume stated that the major:

ity of clubs sending teams to the tournament have competed during each of the 16 classics which have attracted national attention to Nags Head during the past 16 years. Teams will come from clubs in New Jersey. Delaware, Pennsylvania, Maryland, Virginia, District of Columbia and also North Caro-

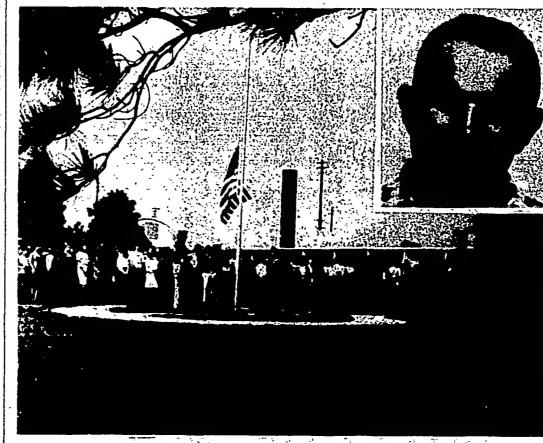

Teams scoring the greatest. number of points during the two days of team competion (Saturday the third day will be open individual) will receive the beautiful Championship Trophy presented to the sponsoring club by Harry W. Stelwagon, but it must be won three times or twice in succession for permanment posession. So far it has never been permanently won, although the name of the winning club team is engraved each year on the unusual trophy.

The top trophy is only one of many awards and prizes that: will be given to winning club teams and individuals. Likewise beautiful and valuable awards go to winners of the open individual phase of the surf classic on the final day of the event.

In addition to the regular team competion made up mostly of men, there will be a special woman's division and some of the fishingest anglers attending past events here have been all women teams from this and other states. There are also special junior award prizes. See TOURNEY, Page Three

SGT. GASKINS INJURED

Sgt. Victor L. Gaskins, with the U. S. Army in Viet Nam, has been injured in combat. duties, and is hospitalized with a hip injury, according to word received by his mother, Mrs. David Tillett of Manteo. Sgt. Gaskins is also the son of David Gaskins of Florida.

MANTEO HIGH SCHOOL STUDENT BODY attended the dedication of the pavement, adjacent walks and flower garden at the flagpole Friday afternoon. Photo shows members of the Mantco Boy Scouts raising the flag. Manteo Lions Club had furnished the manual labor in creating the memorial to the late George Hale Quidley (inset) who had served as janitor of the school from the time it was built until his death nearly four years ago. The dedication program included scripture reading by Student Council President Susan Oneto; a prayer by the council Vice-President Mike Beacham; a welcome by Board of Education Chairman Jack Cahoon; remarks by R. O. Ballance and Jarry Cahoon, with a song by Phillip H. Quidley. The Rev. W. S. Brown spoke the benediction and the flag presentation was by Louis Midgett.

Sophmore students, Della Stoutenburg and John Wilson are credited with the artwork on the Dedication program. (Aycock Brown photo)
