COTTON AND STOCK MARKET

NEW ORLEANS COTTON LETTER.
(Special to The Evening Times.)
New Orleans, La., July 27.—It is evident that the spot interests of Europe are at last awakening to realize that crop prospects in the South are as bad as reported, and if they only knew the true condition of affairs they would be willing to admit that crop accounts now in circulation are not exaggerated at all, as most people reporting from the interior and those who have paid a visit to the country have modified their reports, fearing less credence would be placed in them were they pictured as poor as they really look. It was a more unfavorable position of the Liverpool market than expected that caused the lowering of our market about 12 points at the opening, October 10.72 and causing an additional decline of 5 points, to 10.67, for October after the first call, as the selling at New York seemed to have subsided with the closing of last evening. Traders, however, took advantage of the opportunities of securing some cheap cotton, and as large local operators, formerly on the fence, had at last taken sides with the longs, the market gradually recovered lost ground, October advancing to 11 cents, finally closing at 10.96 @ 10.97. The New York Journal's preliminary State reports on condition of the crop averaged rather favorably for North Carolina, South Carolina and Georgia, some improvement in each State being reported for the month, but contrary to expectations Alabama was not as good as looked for, there being some doubts as to there having been any improvement during the month in that State at all. During the balance of the week we will hear from the more unfavorable districts of the Mississippi Valley and Texas, and it is a foregone conclusion that the improvement reported east of the Mississippi river will be more than offset by the further deterioration to be reported to the western half of the belt. Manchester advices report more desire to buy at a decline than for some time. H. & D. BEER.

STOP ORDERS FEWER THAN EXPECTED.
(Special to The Evening Times.)
New York, July 27.—A decline of 15 points at Liverpool showed the effect of bull leaders, withdrawal and further liquidation here carried our prices down 18 points. It was plain, however, that stop orders were fewer than expected and the market early presented a sold-out appearance. Very little buying was needed to give this market a sharp upturn of 20 points. Room shorts are running before the returning bull wave. Price is reported to have bought again on the decline, which reached \$3 per bale from the last high point, and while he has undoubtedly decided to retire from the market, he will do so gradually. We understand that he has not disposed of his spot cotton as yet, but will probably tender it on August contracts. The proximity of the August bureau report and the growing belief that it will confirm the pessimistic accounts from the Mississippi Valley and Texas, will, no doubt, bring in more buying, and perhaps lift prices to a new high level before the report appears. MILLER & CO.

CONDITION OF COTTON MARKET.
(Special to The Evening Times.)
New York July 27.—Private estimates of crop conditions, not without weight, show a reduction on July 25th of about 5 per cent., and it is believed that the next government report will show a corresponding, if not greater, decline, but the value of these reports has been so seriously lessened that the trade will hold them in lighter repute than hitherto. Their guess work and surmise are being recognized and accuracy is admittedly out of the question. The market felt the decline in Liverpool and advanced on local manipulation. Fluctuations of considerable scope may be anticipated until the disturbances pass away. Outside interest is lighter than for several days, conservative houses doing very little, but advise caution and that prices appear high. HUBBARD BROS. & CO.

NEW YORK COTTON LETTER.
(Special to The Evening Times.)
New York, July 27.—The stock market opened this morning, the dividend on Erie, 2nd, yesterday being a bull factor. The Pennsylvania group grows stronger as dividends increase. Union Pacific and St. Paul are in good demand. Copper is strong and outlook good to go higher. The market closed at best prices of the day. Buy stocks on recessions.
Cotton opened 14 points lower on disappointing Liverpool cables and uncovered stop orders. The market is weak. October rallied 18 points and ruled steady to the close. Public sentiment is bullish and professional bearish. Best firms advise purchase. J. S. BACHE & CO.

RALEIGH VISITORS.
Two Excursion Trains Release a Thousand Interested People.
Since the arrival of two special, or excursion, trains this morning, the streets of the city have been thronged with something more than a thousand men, women and children, both white and black. One part came from Lewiston and the other from the New Bern neighborhood.
All in all the crowds are orderly in every respect and the city is always glad to have them come here for any length of time they may care to spend with us.
Most of the time of the visitors has been spent in riding on the cars and in looking about the State House and the beautiful Pullen Park. Our strangers will not spend the night here, but will leave on the return trip to-night or this evening.

PEACEMAKERS TO MEET ON MAYFLOWER.

President Roosevelt will entertain the envoys at luncheon instead of at dinner, as previously arranged.

MOB STILL AFTER NEGRO MURDERER.
Plainfield, N. J., July 27.—Police-men, detectives and farmers still surround the Dismal Swamp where Charles Long, the negro murderer, ought refuge Monday after a thrilling escape from a posse armed with shotguns and revolvers, that had pursued him for several miles. It is believed Long will remain in the swamp until driven out by hunger or bloodhounds. Arrangements have been made to bring bloodhounds to the scene.

GERM DISEASES OF SUMMER.
No One Need Fear Sickness if Mi-na is Used.
People with strong stomachs and natural digestion are ordinarily not subject to bowel troubles, diarrhoea, and other germ diseases that are so common and dangerous in the summer months.
A Mi-na tablet taken before each meal will give such health and strength to the weakest stomach that the whole system will become strong and well, and so clean and sweet, that there will be no chance for disease germs to become effective.
A great many people imagine that their headaches, dizziness, heart burn, or general despondency and weakness is a sign of fatal illness, when the whole trouble is the direct result of a weak stomach and imperfect digestion. A 50 cent box of Mi-na tablets will show by the great gain in health that the stomach is the cause of the poor health, and that Mi-na is the only remedy that will drive out all weakness, debility, and disease.
Mi-na is so nearly infallible in curing the diseases resulting from a weakened stomach, excluding cancer of the stomach, that W. H. King Drug Co. guarantee to refund the money should the remedy not give perfect satisfaction.
